

PDARC 2 Meter Net Roll Preamble

Good evening and welcome to the Prairie Dog Amateur Radio Club Two Meter Net. This is "Name" "Call" "QTH", and I'll be calling the NET this evening. The club's repeater system operates under the club call sign of W0OJY and consists of linked repeaters in Yankton, Springfield, Vermillion, and Spencer, NE. The South Dakota repeaters use a tone of 146.2 Hz for access, and the Spencer repeater 131.8 Hz.

This net meets every Monday night at 8:30 pm local time and is open to all radio amateurs. Everyone is welcome to check in. Additional information about the club and our repeaters can be found on our club website, which is at www.pdarc.org . **[BREAK]**

The purpose of the net is to handle traffic and announcements for amateurs in the area, to list amateur equipment for sale, to check out your 2M FM stations, and to briefly share your recent amateur radio activities.

If you'd like to support our repeater system, you may send donations to Kurt, AE0A, our club treasurer. Kurt's information is good on QRZ. If you'd like to be a NET Control operator, please contact Leon, W0LKS, our Net Manager.

We'll be taking check-ins by roll call this evening. Please give us your call phonetically, the repeater you're using, and any radio activity you would like to share with the group.

At this time is there anyone on short time or are there any announcements or bulletins for the group? **[BREAK]**

OK, we'll now start down the roll call list.

Do we have any late, new, or missed check-ins? Please give us your call phonetically, your name, your QTH, plus the repeater you're using, or let us know if you're using remote hams.

Thanks for joining us tonight. I hope you can join us next Monday. The repeaters are now returned to normal use.

This is "Call" in "QTH". 73
