High Impact Exploration Opportunities Offshore Namibia

STAMPER oil & gas

TSX.V: STMP | OTC: STMGF | FRA: TMP0

Stamper Oil & Gas Corp. (**TSXV: STMP, US OTC: STMGF, GER: TMP0**), is a pure play offshore Namibia focused oil and gas exploration company, with five blocks covering four Petroleum Exploration Licences (**PEL**s), with exposure to three of Namibia's key offshore oil and gas basins (Orange, Walvis and Lüderitz).

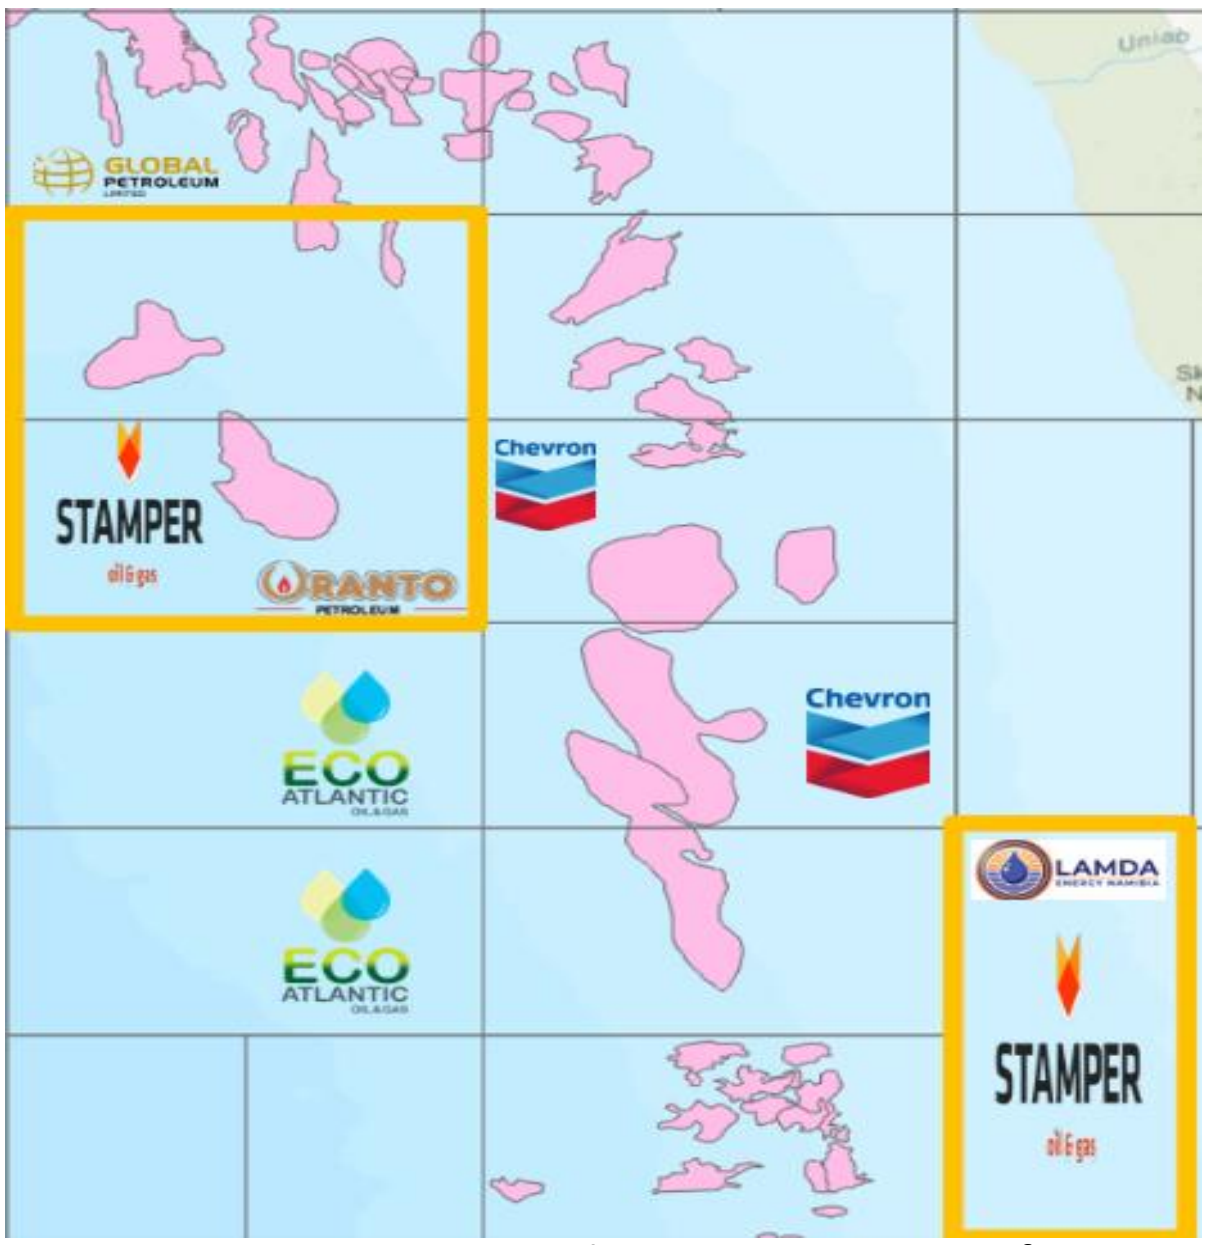
Poised For Significant Growth

- Exposure to ***exploration hotspot Orange basin*** as well as emerging ***Walvis basin***
- ***Carried interests*** means less required capital with significant upside potential
- ***Multiple growth catalysts*** (industry activity, block activity)
- ***No debt***, cash on the balance sheet, simple capital structure

Five Blocks | Four PELs | Three Basins

- ***PEL 107***: Orange Basin, 32.9% WI (Block 2712A)
- ***PEL 106***: Walvis Basin, 5% Carried (Blocks 2011B and 2111A)
- ***PEL 102***: Lüderitz Basin, 20% Carried (Block 2614B)
- ***PEL 98***: Walvis Basin, 5% Carried (Block 2213B)

Walvis Basin Exposure - New Basin



Orange Basin Exposure – Very Active

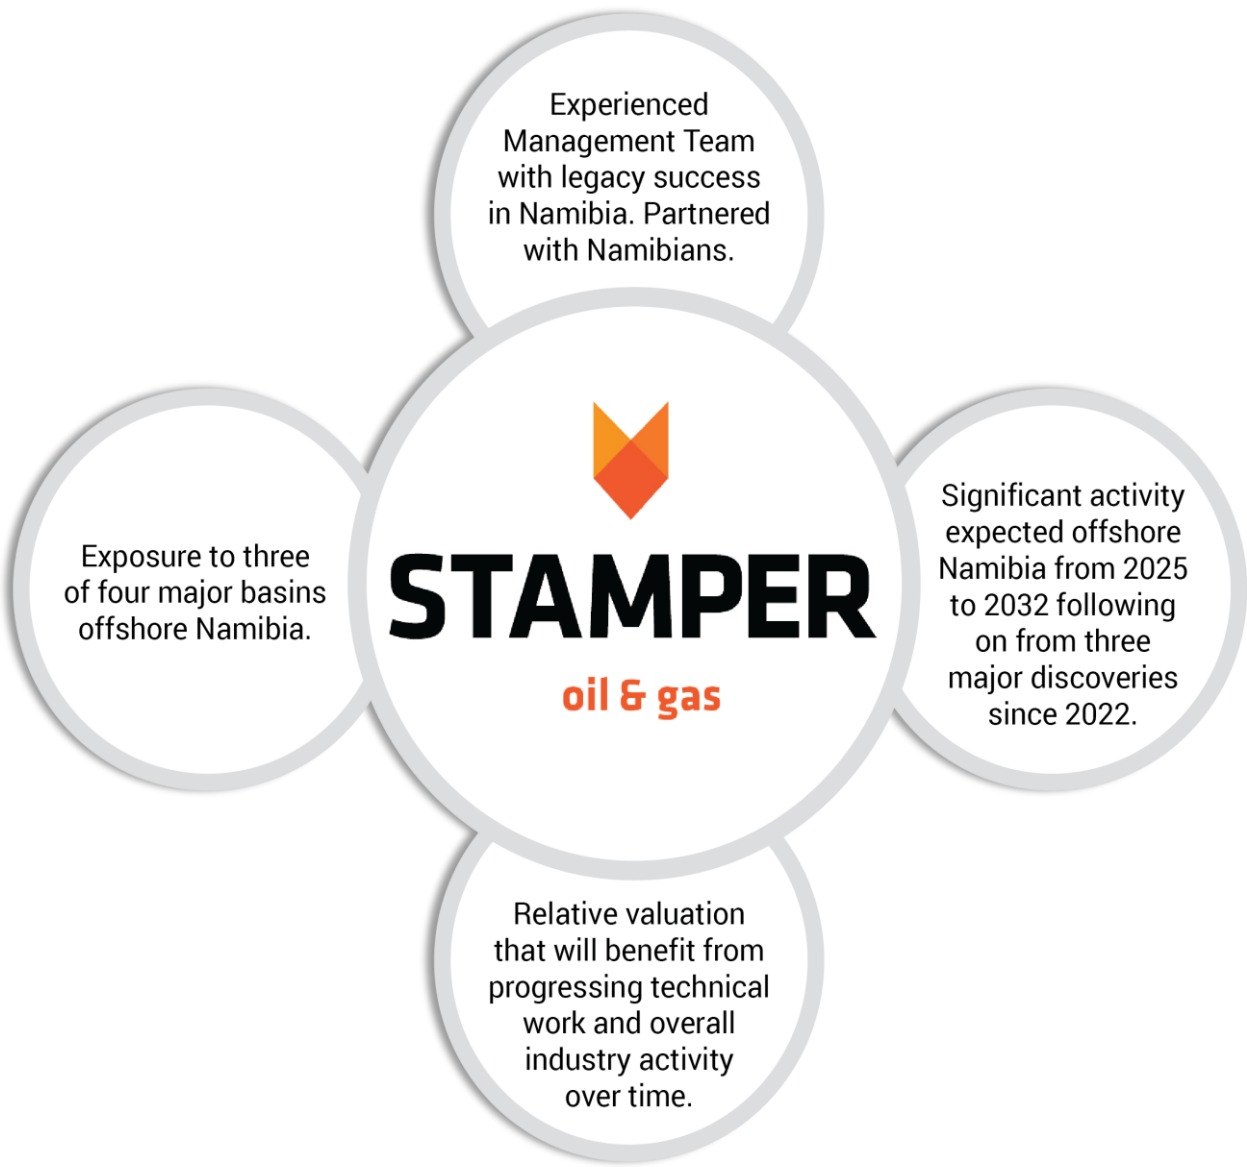
Block Specific Catalysts

- ***PEL 107***: Technical work leading to farm out process
- ***PEL 106***: 3D seismic campaign ahead of drilling
- ***PEL 102***: Technical work combined with farm out process
- ***PEL 98***: new operator, additional seismic, farm out, drilling

The Assets – The People – The Strategy



Shares Outstanding	115,104,524
Share Price	C$0.14
Market Capitalization	C$16,114,633

As at October 31, 2025

Industry Catalysts

- **PEL 85 (Orange Basin): Volans-1X** exploration well **encountered 29m light oil condensate column** (40-degree API) (Rhino/Azule/NAMCOR)
- **PPL 003 (Orange Basin): Kharas appraisal well** on the Kudu Field, **encountered multiple horizons**, with one more well to follow (BW Energy/NAMCOR)
- **PEL 73 (Kavango Basin): Kavango-1X** exploration well, **currently drilling** and expected to complete in November 2025 (ReconAfrica/BW Energy/NAMCOR)
- **PEL 83 (Orange Basin):** Expected completion of the farm out process with interested parties expected to be TotalEnergies, Chevron and Petrobras (Galp/Custos/NAMCOR)
- **PEL 56 (Orange Basin):** Expected Final Investment Decision (FID) on Venus Development (TotalEnergies/Qatar Energy/Impact/NAMCOR)
- **Potential new entrants to offshore Namibia** which may include Petrobras and other national, international oil companies and super majors.

Key People

Mat Goldsmith (Chairman): Partner P5 Infrastructure, founder & partners M2 Advisors, MD Energy, Mining and Infrastructure at BMO (HRT, Custos, Sintana)
Grayson Andersen (CEO): 25 years experience globally, with 15 years in Namibia (UNX/ReconAfrica)
