# Iowa Nutrient Reduction Strategy

---

- Science-based framework that identifies nutrient loss reduction practices from:
  - Nutrient stewardship
  - Land use changes
  - Edge-of-field practices
- Goal of 45% reduction in N & P losses from point & nonpoint sources combined
- Target nonpoint source reduction goals: 41% for nitrogen and 29% for phosphorus
- Developed by Iowa Department of Agriculture and Land Stewardship, Iowa Department of Natural Resources, and Iowa State University College of Agriculture and Life Sciences
