

# Thermo Hygro Data Logger DataLog 207

**Docking Station**

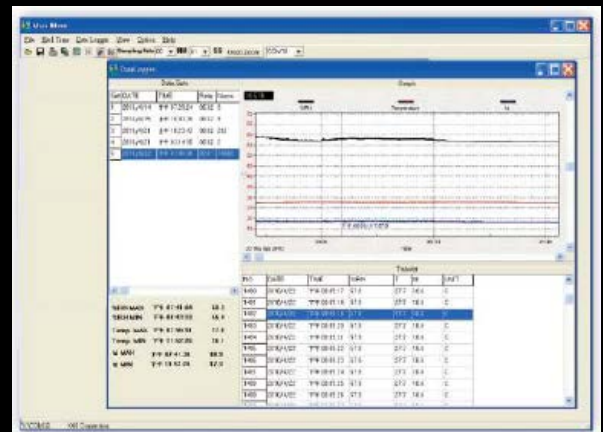

**Hanger**

**STEK DATA Log 207** are Humidity/Temperature data loggers and Humidity/Temperature data loggers. Even though these units are focus on data collecting ,we had placed a LCD display to show the operator on site information. In case of dark environment ,it is even equipped with back light display. Both units feature a real time clock inside so that the events are captured with time stamps. The recording memory can hold up to 64,000 records which can produce high resolution test result.

With water proof housing, the Humidity / Temperature data logger has a lot of applications such as environmental monitoring, food transportation process monitoring or air condition monitoring etc. The data is downloaded through IR photo interface so we do not have to worry about the connector might be d11maged by water.

### FEATURES:

- LCD With Back Light
- Batttery Status Display
- Memory Status Display
- Shi11ped With Wall Hanging Tag
- 32,1100 Records Data logger Per Channel
- PC Interface
- With Windows Software

### SPECIFICATIONS:

Temperature Measurement Range : -30 to 70 °C / -22 to 158 °F  
 Humidity Measurement Range : 5%-98%RH  
 Accuracy : ±0.7 °C ;±3%RH  
 Reolution : 0.1° C;0.1 °F; 0.1%RH  
 Power : 1.5V size AAA battery x 2  
 Data Logger Dimension : 92 x 55 x 22 mm  
 Hanger Dimension : 106.5 x 59 x 25.5 mm  
 Docking Station : 107.5 x 62 x 28 mm
