

Moving Wire Thermocouple Probe

Model No: STEK 80PH-36

Description

- Type K roller probe
- Measurement Range
- Max. 250°C
- Accuracy
- 0.75 Class (Class B)
- Dimension
- 110 (L) x20 (H) mm (roller dimension)
- Swivel head
- Four moving rollers
- Probe with miniature connector
- Fast response time
- Good insulation effect
- Compatible with Type K thermometers

Thermocouple Type	Standard type K thermocouple Option for type J,T,E thermocouple
Moving Wire Diameter	φ 4.5mm max.
Roller Dimension	110 (L) x 14 (H) mm
Max. Temperature	250 °C
Response Time	3 seconds
Number of Roller	4
Cable Length & Material	2 M PU coiled cable in blue (Standard) Straight cable length can be ordered as per customer's request
