Change the quote to this one: Protecting our Republic is critical and it's up to each generation to do its part. A nation stays strong when its people believe it is worth protecting, improving, and ensuring the next generation has the same freedoms and liberty. Being a patriotic angel is symbolic of that effort. - Kim Owens

Human Faces

make me a graphic image card with our vacation info so I can send it to our family so they know our itinerary. Make the graphic simple and fun tropical vacation vibes without it looking AI. Also include our family photo and make the card graphics and theme match the vacation vibe and location - also give it a Cuban American flare since we will be in Miami with my Cuban family: "The Parker's are headed to Florida June 16-30. 16-19 in Orlando - Theme Parks Visits. 20-21 Miami - Familia Visitas. June 22-25 Key West. 26-30 Miami with the familia!"

It's perfect. But replace the family pic with this one (you reattach original pic). Or use Canva!

The image shows a Canva design workspace. The top navigation bar includes 'File', 'Resize', 'Editing', and 'Share' options. The left sidebar contains various design tools and categories like 'Templates', 'Elements', 'Text', 'Brand', 'Canva AI', 'Uploads', 'Tools', 'Projects', 'Apps', and 'Logic Media'. The main canvas displays a vibrant travel poster for a family named 'The PARKER'S' heading to Florida from June 16-30. The poster features a family photo and a detailed itinerary:

- JUNE 16-19**: ORLANDO - Theme Parks Visits (with a castle icon)
- JUNE 20-21**: MIAMI - Familia Visitas (with a classic car icon)
- JUNE 22-25**: KEY WEST (with a sailboat icon)
- JUNE 26-30**: MIAMI - with the familia! (with a coffee cup icon labeled 'CAFÉ CUBANO')

The poster also includes the slogan 'Sunshine. Family. Buena Vibra.' and decorative elements like palm trees, a hibiscus flower, and a Cuban flag. At the bottom of the design area, there is a '+ Add page' button and a zoom level of 36%.
