

Fuel Fix

We at Blue eye Trading discovered Fuel fix and since we've been using it, we found that the fuel fix helps reduce cost to the amount of Diesel we use per vehicle, it also has proven to show that our trucks filters show a decreased amount of water caught in the filters and the filters stays cleaner for longer than it used to. This product has proven to reduce our costs to repair / change Filters on our vehicles and is highly recommended to use to improve performance on the vehicles and reduces cost very effectively.

Thank you, Eugene and your team, for providing us with such a good product.
