RE: MDOT Local Bridge Funding Applications

The City of Pontiac has been notified that the Michigan Department of Transportation (MDOT) is accepting applications for 2021 Local Bridge funding. Through required inspections, the two bridges referenced in the attached resolutions have been identified as possible candidates for rehabilitation and/or replacement.

Selected projects that include structure rehabilitation, replacement, and approach construction may be eligible for a maximum of 95 percent participation from federal and/or state funds. If the City is awarded funding for one or all of the referenced bridges, the funding will be made available during the 2024 fiscal year.

Please be advised, with no City definitive funding source for bridge rehabilitation and/or replacement, it is in the City's best interest to apply for said funds.

Based on the information above, it is my recommendation that the attached resolution be acted upon favorably by the City Council, authorizing the appropriate Department of Public Works to sign said application on behalf of the City of Pontiac.

RESOLUTION

CITY OF PONTIAC

OFFICIAL MEMORANDUM

Executive Branch

TO: Honorable City Council President Williams and City Council Members

FROM: Darin Carrington, Finance Director

DATE: March 3, 2021

RE: Renewal of Contract with AT&T

The City of Pontiac has recently been making changes and improvement to the City's telecommunications infrastructure. Recently the City Council approved a new phone system with Ring Central for an improved and updated cloud base phone system.

The current contract with AT&T is set to expire on April 1, 2021. The Administration is submitting a proposed extension to the AT&T contract for a total of 3 additional years. AT&T has been providing telecommunication services to the City for a number of years, dating back to the mid 1990's. Currently they provide all of our telecommunication needs, including internet, for the City Hall and 50th District Court.

The new contract would reduce the amount of services that AT&T provides which will yield some costs savings. Currently, AT&T provides both voice and internet service for the City. Under the proposed contract extension, AT&T will only be providing the City's internet service.

With the new AT&T agreement, along with the recently approved Ring Central phone system, the City will be able to implement an improved system, realize some costs savings and provide more efficient service for employees, residents and customers.

Following is a summary of the differences in price and services to be provided by AT&T with the new contract:

- 1- The new contract does not include voices services as that will be provided by the new RingCentral Cloud VoIP services that is being implemented.
- 2- The new contract eliminates expensive data connection between City

Hall and District Court. New Internet service will be installed at District Court and VPN will be provided for network access between the 2 buildings.

- 3- The monthly price in the new contract will be \$1,848.00 vs. \$6,099.65 in the existing contract. This will result in a monthly savings for \$4,251.65, annually \$51,019.80 for data network services.

The Administration hereby requests that Council approves the new agreement with AT&T and adopt the following resolution:

Whereas, AT&T, the City's current telecommunications and internet provider has presented the City with proposals for these services for a period of three years; and,

Whereas, the Mayor and Finance Director have reviewed the proposals, have recommended that proposals are accepted, and have certified available funding.

Now Therefore, Be It Resolved, that the City Council approves the proposal from AT&T to provide telecommunication and internet services as outlined in the summary sheet and the separate agreements attached in this resolution.

Attached is the price sheet detailing all the charges that I summarized above plus the new documents for all the services provided by AT&T in the next three years.

If the council agrees with the renewal here is a resolution needed to pass:

Whereas, AT&T, the City's current telecommunications and internet provider has presented the City with proposals for these services for a period of three years; and,

Whereas, the Mayor and Finance Director have reviewed the proposals, have recommended that proposals are accepted, and have certified available funding.

Now Therefore, Be It Resolved, that the City Council approves the proposal from the AT&T to provide telecommunication and internet services as outlined in the summary sheet and the separate agreements attached in this resolution.
