CAR COVERS

PLEASE PROVIDE FISHER BODY STYLE NUMBER WHEN ORDERING

COVERS IDEAL FOR INDOOR STORAGE:

READY FIT COVERS

- * Lightweight polypropylene material.
- * Compact for easy handling and storage.
- * Breathable- Allows moisture and condensation to evaporate.
- * Dries quickly- Won't rot or mildew.
- * Soft- non-abrasive- won't shrink or stretch.

P1001A	Coupes and Sedans.....	99.95
P1001B	Station Wagons.....	119.95

Available only in Grey

TAN FLANNEL

Favored by traditional enthusiasts, tan flannel always provides a soft touch to pamper fine paint finishes. Designed primarily for indoor storage use, this woven cover is constructed from a durable polycotton blend.

- * Flannel Underside- Soft, napped finish.
- * Long Wearing- Over 50% heavier than our grey polycotton fabric.
- * Breathable- Allows moisture and condensation to evaporate and will not trap heat under cover.
- * Water Resistant- Treated for moisture repellency.
- * Rot, Mildew Resistant- Treated to resist rot and mildew.

P1005A	Coupes and Sedans.....	273.85
P1005B	Station Wagons.....	293.85

Available only in Tan

COVERS IDEAL FOR OUTDOOR STORAGE:

MULTIBOND

Kimberly-Clark developed BLOCK-IT 200 Series fabric to be a mid-price leader in quality and performance. It uses 3 layer polypropylene constructed for moisture and dust resistance, and the fibers are treated for extra UV resistance. If you are looking for an inexpensive cover for indoor storage and light outdoor use, this U.S. made fabric offers good, basic protection and is an excellent value.

- * Lightweight- Easy to use and less bulky for compact storage.
- * Breathable- Allows moisture and condensation to evaporate.
- * Moisture, Mold & UV Resistant- Polypropylene fibers are naturally moisture resistant and treated for extra UV protection.
- * Good Dust Protection- When used indoors, keeps vehicle cleaner than most woven fabrics.

P1020A	Coupes and Sedans.....	157.87
P1020B	Station Wagons.....	177.87

Available only in Grey

TECHNALON

Technalon covers, made with Kimberly-Clark's evolution 4-layer non-woven polypropylene fabric, provide maximum protection in all weather conditions. Often imitated, but never equaled, U.S. made Evolution fabric covers are used by millions of satisfied car enthusiasts around the world.

Recent improvements include a stonger outer layer and softer inner layer. The inner layer is constructed with similar processes used for our Dustop interior storage covers- gentle protection for fine paint finishes (inner layer is now light grey). Through extensive testing in Florida, K-C has confirmed Evolucion has the highest UPF rating of all thier non-woven fabrics. This is important because UV rays are what damage both the exterior AND interior of any vehicle. Block the UV rays- protect the vehicle!

- * Naturally Moisture Resistant- Acid rain, industrial pollutants, tree sap and bird droppings will not harm the fabric.
- * Dries Easily- Moisture is not absorbed by the fabric fibers.
- * Breathable- Allows air to circulate through the fabric.
- * Dust/ Pollution Barrier- The two middle layers of melt-blown fabric act as filtration barriers against most airborne pollutants.
- * Impact Absorption- 4-layer thickness absorbs impacts better than any other vehicle cover fabric to help protect the finish from nicks, dings, dents and scratches.

P1010A	Coupes and Sedans	256.58
P1010B	Station Wagons.....	276.58

Available in Grey or Tan

WEATHERSHIELD HP

The Ultimate all-weather cover fabric just got better!

How can you make a fabric that's been selected as an OE choice for luxury, high performance, and specialty vehicles and motorcycles better?

The fabric "breathes" to allow moisture, condensation and heat to easily escape from under the cover. The encapsulation technology goes INSIDE the fabric, around the fibers, resulting in a silky smooth finish that glides over fine paint finishes.

Nextec engineers have now married solution-dyed fibers to the EPIC finish in an environmentally friendly process that features much lower CO2 emissions!

Color permancy is the key to new Weather Shield HP- the color is extruded INSIDE the fibers for maximum fade resistance, NOT a surface dye coating. The result is a cover that provides all weather protection, fade resistance, is machine washable, and environmentally friendly!

Available in Bright Blue, Black, Lt Blue, Green, Red , Yellow

ULTRA'TECT

Ultra'tect was developed from the need for a cover that would retain its color and strength during extended outdoor exposure, while providing a high degree of water resistance and UV protection at a reasonable price. Ultra'tect is made from solution-dyed WeatherMax SL fabric with the following features and benefits:

- *Fade Resistance- The color is added to the polymer before it is extruded into yarn for max fade resistance (not surfaced dyed).
- *Superior Shape Retention- Fabrics are resistant to sagging because the fibers are designed to have minimal stretch.
- *Strong- Using double 150 denier yarns in both the machine and cross direction (2/150's MD & CD) helps provide higher strength and better water resistance than using single 300 denier yarns.
- *Luxurious "Hand"- The weave gives Ultra'tect covers more durability and dimensional stability with a luxurious hand for "feel".
- *Water Resistant-A highly water-repellent HydroMax finish on both sides of the fabric helps protect against rain, while maintaining the fabric's breathability.
- *Excellent UV Protection- Ideal for applications that are subject to prolonged sun exposure and extreme elements.
- *Easy To Use- Ultra'tect's fabric weight is "just right" for everyday use. Heavy enough to stay in place and light enough to easily handle on a day-to-day basis.
- *Easy To Clean- Most mid-size vehicle covers can be cleaned in a home washer and dryer.

P1025B	Station Wagons.....	349.62

Available in Black, Grey, Blue and Tan

COVERS IDEAL IN HOT CLIMATES WITH INTENSE SUN:

WEATHERSHIELD HD

Developed primarily for intense sun environments and long-term storage, WeatherShield HD not only provides UV opacity, it also repels water, blocks dust, tree sap and bird droppings while still remaining breathable enough to allow moisture and heat to escape from under the cover. The base material for WeatherShield HD is woven by Glen Raven Mills (makers of Sunbrella), using solution dyed UV resistant polyester fibers. Not only is the fabric solution dyed, the 300 denier construction is 40% heavier than regular WeatherShield and the heavier denier thread provides double the tear and tensile strength. This superior base fabric is then finished with a patented immersion encapsulation process which is the same high performance finish used on our popular WeatherShield fabric. Using proprietary processes, a specially formulated finish is placed inside the fabric to bond to each individual thread and fill the valleys between the woven fibers. These special formulas have amazing elasticity to block moisture and dirt, while still maintaining the breathability of the fabric.

People who live in intense sun climates or along the coast will benefit most from this new fabric. Although it's not as silky smooth as regular WeatherShield, it is as compact. For maximum performance in the harshest of environments you can't beat WeatherShield HD.

P1030B	Station Wagons.....	558.69

Available only in Grey

NOAH

NOAH barrier fabric actually stops water, yet it "breathes" to allow any trapped moisture, seam seepage, or condensation to easily evaporate. The unique construction process (patent pending) results in a cover with maximum all weather protection. Highly water, UV, and dust resistant, this fabric also makes sure moisture and heat do not stay under the cover. Made in the USA by Kimberly- Clark, the fabric weighs only 4.75 oz per square foot, making it super easy to handle and fold.

- *Protective Outer Layers- A bi-component spunbond, using sheath-core technology. The inner core is polypropylene for strength, with a polyethylene wrap for softness. A silver-grey color was selected because of its heat resistant properties. This fabric is also treated with UV inhibitors for extended outdoor use.
- *Micro- Porous Middle Layer- The barrier layer is breathable film, a proprietary stretch-film technology developed exclusively for Kimberly-Clark. The film is stretched and subjected to a chemical process that creates microscopic holes smaller than droplets of water or dust, yet large enough to allow moisture vapor to escape.
- *Soft, Paint- Protecting Inner Layer- A bi-component fabric made with polyethylene and nylon. This combination results in an exceptionally high strength-to-weight ratio, with the "soft touch" necessary for today's water based paint finishes.

P1035A	Coupes and Sedans.....	290.86
P1035B	Station Wagons.....	310.86

Available only in Silver-Grey

SUNBRELLA

The ultimate fabric for intense sun environments. Thanks to its unique construction process, Sunbrella provides protection and years of service in intense sun areas where UV rays will otherwise rapidly degrade the paint and interior. Because of the use of acrylic fibers, which are naturally UV resistant, Sunbrella has long been the recognized leader in long-wearing marine fabrics for bimini tops, sail cloths, and deck enclosures. Besides marine uses, Sunbrella is also used for commercial awnings due to its ability in providing UV blockage with a rich woven finish. The acrylic fibers are solution dyed, before the fabric is woven, to assure that the color goes all the way through the fabric. Using a special finishing process, the material is then softened for use as a car cover fabric. The fabric is exceptionally strong, coupled with its UV resistance it also makes an excellent cover for RVs and trailers that spend extended time stored outside.

- *Long Lasting Strength- Acrylic fibers suffer minimal loss of strength from exposure to heat, moisture and UV rays.
- *Fade Resistant- Colors are a result of pigments which are actually built into the fibers (solution dyed).
- *Rot, Mildew Resistant- Acrylic fibers resist growth that occurs in most environments.

ORDERING AND GENERAL INFORMATION

RETURN POLICY: If you are not satisfied with any item, it may be returned within 30 days from the date of receipt for a full refund or exchange. Please call us for a Return Authorization Number. This RAN must appear on any returns or they will be refused. A copy of the original invoice must accompany all returns. Any part returned after 30 days will be subject to a 20% restocking fee. Please advise why the part is being returned so that we can take the appropriate action. All parts being returned must be transportation prepaid. All printed material, cut to order, electrical, and special order parts are not refundable. All shipment damages and/or shortages must be reported within 10 days.

SHIPPING CHARGES: For ground shipping & handling charges, refer to the chart on the order form. Outside the USA, we will charge Priority Mail or UPS rates plus a \$15.00 documentation fee. Please be aware of size and weight restrictions. Next Day, 2nd. Day, and 3rd. Day Air service is available in the 48 contiguous US states. Please CALL us before 3 pm! The exact additional delivery and handling charges must be added. Saturday delivery is available with Next Day Air service only; please add an additional \$10.00.

BACK ORDERS: While we normally stock most all the items in our catalog, we do at times exhaust our supply. If we expect the item to be available in a reasonable amount of time, we will back order it on your behalf. While it is frustrating to back order a part, the system does offer certain benefits. You will not be billed until the item is shipped, and it will be reserved in your name and sent as soon as it arrives in our warehouse. Most importantly, you will receive it at the same price, even if significant price increases have occurred. Shipping charges are added to each shipment.

INSURANCE: Each order is charged an insurance fee of \$2.95. This fee will insure the entire order and protect you completely from damages or loss. The order form located on the opposite side of this page includes this fee in the indicated column when your order is being totalled.

MAIL ORDERS: We accept personal checks, money orders, bank checks, visa, Master Card, American Express, and Discover cards. Please do not send cash. Please also give us part numbers and a full description of the parts that you are ordering. Shipments may be held for up to 2 weeks for personal checks to clear the bank.

COD ORDERS: COD is accepted on phone orders shipped to addresses in the USA only. All COD orders are shipped via UPS only. The COD charge is \$8.95 per package over and above all other charges. Payment must be made by certified funds or money order only.

FAX ORDERS: We have a 24 hour fax machine. Our fax number is 304-724-6660, or 800-872-2014.

CORE DEPOSITS: The purpose of a core deposit is to ensure the return to us of good, rebuildable parts. Your core deposit will be refunded when we receive your complete, rebuildable core. Core returns must be transportation prepaid, and a copy of the original invoice must accompany your core. Please compare your core to what you receive, and make sure it is complete and assembled when returned. No credit will be issued for damaged, broken, disassembled, or incomplete units.

EXCHANGE ONLY: We will have your original part rebuilt to meet or exceed O.E.M. specifications. You must send us the part with an order form and payment. Then we will return it to you rebuilt.

PRICES: Prices are subject to change without notice. If unsure, please call our sales line for the latest information. We try to maintain competitive pricing on all of our parts, but our costs can sometimes change with little or no notice - and we must pass on the increase (or savings!) on to you. In addition, part numbers, specifications, and descriptions of products can also change at any time - and without notice.

LIABILITY: THE SELLER, USA PARTS SUPPLY, LTD., HEREBY EXPRESSLY DISCLAIMS ALL WARRANTIES, EITHER EXPRESSED OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OR FITNESS FOR A PARTICULAR PURPOSE, AND USA PARTS SUPPLY, LTD., NEITHER ASSUMES NOR AUTHORIZES ANY OTHER PERSON TO ASSUME FOR IT ANY LIABILITY IN CONNECTION WITH THE SALE OF THIS MERCHANDISE. YOUR SOLE REMEDY FOR ANY CLAIM WILL BE THE REFUND MENTIONED ABOVE. YOU UNDERSTAND THAT WE WILL NOT BE LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES SUFFERED IN CONNECTION WITH THE PURCHASE OR RESALE OF ANY PRODUCT.

ORDERING AND GENERAL INFORMATION

RETURN POLICY: If you are not satisfied with any item, it may be returned within 30 days from the date of receipt for a full refund or exchange. Please call us for a Return Authorization Number. This RAN must appear on any returns or they will be refused. A copy of the original invoice must accompany all returns. Any part returned after 30 days will be subject to a 20% restocking fee. Please advise why the part is being returned so that we can take the appropriate action. All parts being returned must be transportation prepaid. All printed material, cut to order, electrical, and special order parts are not refundable. All shipment damages and/or shortages must be reported within 10 days.

SHIPPING CHARGES: For ground shipping & handling charges, refer to the chart on the order form. Outside the USA, we will charge Priority Mail or UPS rates plus a \$15.00 documentation fee. Please be aware of size and weight restrictions. Next Day, 2nd. Day, and 3rd. Day Air service is available in the 48 contiguous US states. Please CALL us before 3 pm! The exact additional delivery and handling charges must be added. Saturday delivery is available with Next Day Air service only; please add an additional \$10.00.

BACK ORDERS: While we normally stock most all the items in our catalog, we do at times exhaust our supply. If we expect the item to be available in a reasonable amount of time, we will back order it on your behalf. While it is frustrating to back order a part, the system does offer certain benefits. You will not be billed until the item is shipped, and it will be reserved in your name and sent as soon as it arrives in our warehouse. Most importantly, you will receive it at the same price, even if significant price increases have occurred. Shipping charges are added to each shipment.

INSURANCE: Each order is charged an insurance fee of \$2.95. This fee will insure the entire order and protect you completely from damages or loss. The order form located on the opposite side of this page includes this fee in the indicated column when your order is being totalled.

MAIL ORDERS: We accept personal checks, money orders, bank checks, visa, Master Card, American Express, and Discover cards. Please do not send cash. Please also give us part numbers and a full description of the parts that you are ordering. Shipments may be held for up to 2 weeks for personal checks to clear the bank.

COD ORDERS: COD is accepted on phone orders shipped to addresses in the USA only. All COD orders are shipped via UPS only. The COD charge is \$8.95 per package over and above all other charges. Payment must be made by certified funds or money order only.

FAX ORDERS: We have a 24 hour fax machine. Our fax number is 304-724-6660, or 800-872-2014.

CORE DEPOSITS: The purpose of a core deposit is to ensure the return to us of good, rebuildable parts. Your core deposit will be refunded when we receive your complete, rebuildable core. Core returns must be transportation prepaid, and a copy of the original invoice must accompany your core. Please compare your core to what you receive, and make sure it is complete and assembled when returned. No credit will be issued for damaged, broken, disassembled, or incomplete units.

EXCHANGE ONLY: We will have your original part rebuilt to meet or exceed O.E.M. specifications. You must send us the part with an order form and payment. Then we will return it to you rebuilt.

PRICES: Prices are subject to change without notice. If unsure, please call our sales line for the latest information. We try to maintain competitive pricing on all of our parts, but our costs can sometimes change with little or no notice - and we must pass on the increase (or savings!) on to you. In addition, part numbers, specifications, and descriptions of products can also change at any time - and without notice.

LIABILITY: THE SELLER, USA PARTS SUPPLY, LTD., HEREBY EXPRESSLY DISCLAIMS ALL WARRANTIES, EITHER EXPRESSED OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OR FITNESS FOR A PARTICULAR PURPOSE, AND USA PARTS SUPPLY, LTD., NEITHER ASSUMES NOR AUTHORIZES ANY OTHER PERSON TO ASSUME FOR IT ANY LIABILITY IN CONNECTION WITH THE SALE OF THIS MERCHANDISE. YOUR SOLE REMEDY FOR ANY CLAIM WILL BE THE REFUND MENTIONED ABOVE. YOU UNDERSTAND THAT WE WILL NOT BE LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES SUFFERED IN CONNECTION WITH THE PURCHASE OR RESALE OF ANY PRODUCT.
