

Is Now Proudly Offering

"The Group"

A cohort model of training and support to understand behavior from a neuroscience / relational lens, derived from Robyn Gobbel's best seller "Raising Kids with Big Baffling Behaviors" we now have providers currently offering support as facilitators in training.

Separate cohorts for: Educators, Caregivers, Professionals

Limited to 10-12 per cohort to provide a safe and cohesive community to last long after the group.

Private Consultation and Observation Provided for Daycares

Provided by a licensed mental health professional / child therapist and trained facilitator in the neuroscience of behavior
