We've also clicked several selection boxes for different logs. Now click the preview icon.

12:07

You can preview up to four logs at a time

Align the logs so the depths match, then click the Sync Scrolls button to scroll all at once

If you press Shift & PrtSc you'll get a crosshair cursor. Click and drag the cursor across a rectangular area that you wish to capture. This window will pop open asking you to name the file you wish to save.
