

Miss Globe United States FINALS News!

August 1, 2020

The health and safety of our participants, staff, volunteers and attendees is of utmost importance to the Miss Globe United States Organization. Due to COVID-19 and subsequent executive orders, Cisco & Cisco Productions, Inc has made the difficult decision to postpone the in-person Miss Globe United States and Miss Teen Globe United States National Finals this October. Having spent the past year preparing for the event with our reigning titleholders, advisory board, state directors, sponsors and event partners, we are genuinely disappointed not to be able to host you at this time.

Following the guidance from the CDC and the growing escalation of the Covid-19 outbreak in the United States, the United States finals for Miss Globe and Miss Teen Globe will move to a virtual platform for 2020. The Virtual Presentation and Announcement of the new Miss Globe United States & Miss Teen Globe United States queens will take place October 24th on the official social media pages.

The virtual event will replace the previously scheduled National Pageant allowing all registered contestants to compete virtually for the chance to represent the United States. All participants will remain eligible and are invited to compete on stage at the 2021 National finals.

We want to thank all our titleholders, applicants and partners for their support, open discussions and encouragement. We look forward to providing a world-class and safe event next July in 2021!
