

Concrete Forming, Pouring, and Finishing Warranty

Contractor warrants that all concrete forming, pouring, and finishing work will be performed in a good and workmanlike manner, consistent with industry standards. This warranty covers structural integrity and workmanship for a period of one (1) year from the date of completion.

This warranty does not cover cosmetic issues such as hairline cracks, surface discoloration, or minor surface scaling, which are typical in concrete exposed to environmental conditions.

Contractor is not responsible for damage caused by de-icing chemicals, heavy equipment, natural settlement, weather-related exposure, or any finishes that a third party, other than the Contractor, applies to the concrete.

Any claims of latent defects must be reported in writing within the warranty period and will be evaluated at the Contractor's discretion. For more information on caring for your concrete please visit www.ajstrucking.com
