

Concrete Delivery Warranty

Contractor guarantees that delivered concrete meets applicable specifications at the time of loading and is

batched according to the requested mix design.

Contractor is not responsible for changes to concrete quality due to onsite handling, delays in placement,

overwatering, retempering, or environmental conditions at the job site.

No warranty is provided for concrete once it leaves the delivery vehicle unless expressly stated in writing.

Responsibility for placement, finishing, curing, and protection lies solely with the receiving party.
