

PRIVACY STATEMENT

Last modified: 3/25/2021

Verified Technologies, Inc. (“**Verified Tech**,” “**us**,” “**our**,” or “**we**”) respects your privacy and is committed to protecting it through our compliance with this Privacy Statement. This Privacy Statement describes the types of information we may collect when you visit or use the *QuickConsent*[™] mobile application (“**Application**”) and services provided to you by Verified Tech, and our practices for collecting, using, maintaining, disclosing, and protecting that information. The Application and all Verified Tech services available through the Application are collectively referred to in this Privacy Statement as the “**Services**.”

The *QuickConsent* Application allows registered users of the Services (each, an “**App User**”) to request and verify explicit consent before engaging in sexual activity with another App User. The Application makes it easy to confirm that both partners have consented through a consent agreement entered into by and between partners using the Application (each, a “**Consent Agreement**”) and allows either partner to change their mind or report violations. Each Consent Agreement you enter into consists of two components: (1) a voice recording by each partner consenting to participate in the sexual activity and containing a safe word that can be used by either partner to stop the activity (“**Voice Signature**”); and (2) an audio-only recording of the sexual activity session (“**Session Recording**”).

California Residents

Verified Tech’s [Supplemental Privacy Statement for California Residents](#) supplements the information contained in this Privacy Statement and applies solely to visitors, users, and others who reside in the State of California.
