

Dolphin banana

These are excellent for a snack because they require hardly any effort and the wow factor is serious.

What you'll need:

- 1 banana, unpeeled, sliced about halfway down
 - 1 goldfish or cheddar cracker
 - A handful of blueberries
 - A black marker
- A small paper cup (I used paper coffee cups and cut the tops off)

Carefully slice the “stem” of the banana and insert the cheddar cracker. Draw an eye with the magic marker and place the banana in the cup. Add blueberries for the “water.”
