

PREPARING FOR THE NEW DEVICE DEMANDS OF THE FUTURE

To stay competitive and agile, organisations require a highly productive workforce, empowered by the right technology. This means technology leaders need to match highly functional technology to the needs of every worker, enabling each person to have an experience that is productive and fulfilling.

Beyond BYOD

85% of all workers prefer their organisations provide them with an ecosystem of tested and supported devices and accessories, rather than providing that ecosystem themselves.¹

Manufacturing, Logistics & Retail

62% of these workers say having the right ecosystem makes them more motivated and engaged.²

Media & Entertainment

60% of these workers say freezes, bugs and glitches negatively affect motivation and engagement.³

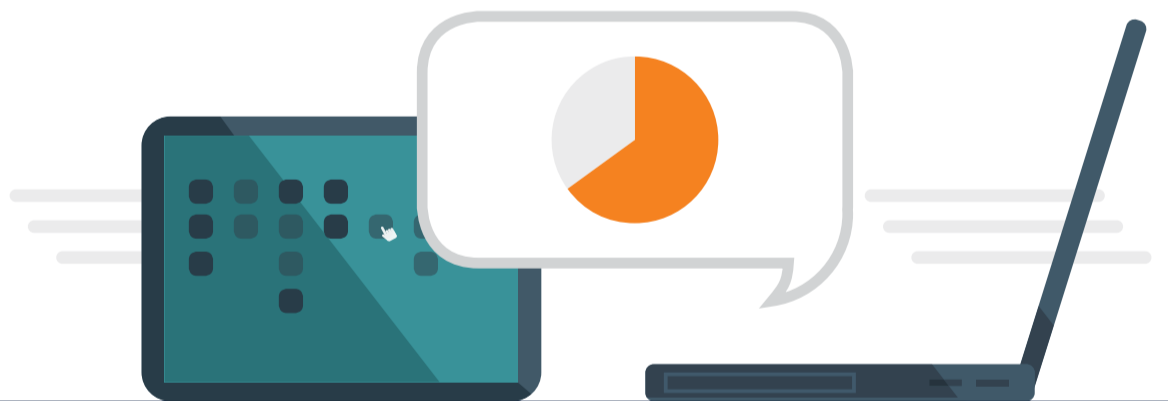

Technology & R&D

60% of these workers consider an organisation's technology when applying for a position.⁴

A Mobile Future

65% of all workers prefer to work for an organisation that offers mobility and flexibility.¹

Astronotech has partnered with Dell to help you engage your top talent with reliable devices that can handle the most demanding of applications – powered by Windows 10 Pro for Workstation, the most powerful Windows yet.
