Astrontech
"the art of possible"

Which Precision workstation is right for you?
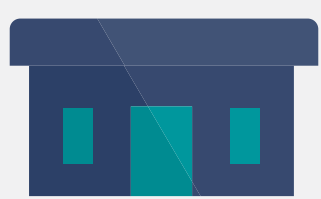

The Bright Spark

The Creator

The Visionary

You work in

Small / Medium Size Business

E.g. engineering, design, science, finance, healthcare, retail.

Medium Size Business

E.g. manufacturing, engineering, architecture, design, construction, education, AR/VR content and creation, 3D animation.

Larger Company

E.g. complex graphic projects, infrastructure and city planning, engineering, animation, game design, AI projects, data sciences.

You need

Versatility, reliability, high resolution graphics, AR/VR capability, data analysis, multiple screen performance.

Significant processing power, outstanding AR/VR content creation, immersive workflow readiness, high speed USB ports and scalability.

Ultimate performance, turbo-charged graphics packages, outstanding datacentre protection, collaborative working, scalability.
