

Unimas Consulting Solutions

We Improve Processes,
make Digital Technology work for you and reduce Costs

“ Unimas team were able to understand our requirements very well and propose multiple solution options for us to choose according to our budget and needs. We are highly satisfied with their efforts and recommendations and would strongly recommend their services to other companies requiring consulting in Business Strategy and Digital Transformation strategy design
- Owner,(SME) Food Business

“ We have benefitted significantly from Unimas experience and knowledge, as they always operate and focusing on the root cause of our problems and providing very practical and effective solutions.”
- CFO, Global Agriculture Major

“ Defining and executing RFP process for ERP & Implementation vendor selection, which led to a robust requirement definition and vendor selection program and delivering a Project Cost savings of USD 20mn over the previous ERP project proposals.”
- VP IT, Japanese Trading giant

“ Unimas Team delivered projects effectively and on time within the agreed costs. They understood the complex and unique situation very well, and were able to develop methodologies and excellent solution to suit the business needs in a practical and effective manner and gained good support and acceptance from the business teams and IT teams. They brought their extensive working experience and best practice knowledge in delivering the project deliverables which were well aligned to the business needs and problems”
- EVP Finance and IT, Global Agri & Foods Business
