

PGA Bin Sensors

- The most affordable bin monitoring system on the market along with PGA's original bin moisture and temperature cables.
 - No subscription needed.
 - Unlimited 5 year warranty.
- Wirelessly monitor the bin conditions of stored grains to ensure best grain quality and prevent spoilage.
 - Receive notifications for potential grain spoilage alerts anywhere, anytime.
 - Manage data anywhere through our website or app, available for Android and IOS.
- Compatible with most existing temperature and moisture cables on the market.
- Can read up to 8 moisture or temperature cables per unit.
- Fan control add-on unit allows manual wireless aeration control.
- Battery powered - rechargeable with included solar panel
- Board to board communication allows for greater distances between each unit
- WiFi or hotspot connection required to connect to the server
