## A Rock & Roll Christmas Story

Music fans of all persuasions will appreciate the sounds of the holiday season presented with a new twist as the musicians of **Gabby Road Project** combine talents to create “**A Rock and Roll Christmas Story**,” a unique musical theatre performance based around the familiar story of a rock ‘n roll loving kid of the 60s as he yearns for the ultimate gift on his Christmas list to Santa.

**Classic holiday Rock ‘n Roll** from the Beach Boys, Elvis, Brenda Lee, Bruce Springsteen, John Mellencamp, the Eagles and others, combine with **original Gabby Road Project arrangements** based on holiday classics from the Beatles, the Ventures, Chuck Berry and more, all delivered in Rock ‘n Roll style. The result is a music smorgasbord to appeal to every audience. The use of lighting and projected imagery brings added variety to the show. Unique renditions of classic music of the season along with the nostalgia of Christmas past create a fun evening of rockin’ and reminiscing. Remember Easy-Bake Ovens and Creepy Crawlers? We’ll share our Christmas memories with you!

The **Gabby Road Project** ([www.GABBYROAD.net](http://www.GABBYROAD.net)) is the creation of a group of musicians from a variety of musical backgrounds who built a studio for rehearsing, recording and creating podcasts of all things Beatles, British Invasion and 1960s and 70s pop music and culture (located in Watertown, Minnesota). A Rock and Roll Christmas Story is the result of their intent to turn a version of this experience into a live show. Musicians in the group come from a variety of musical backgrounds, groups, genres and talents, and love nothing more than creating lively entertainment for a wide range of musical interests.

Due to the overwhelming success of the first few performances in 2024, fans are asking for more. Our goal was to create a fun and joyful show for all ages, and we did it!
