

Boise School District

WAIVER and RELEASE OF LIABILITY

I, the parent/guardian of a registered Timberline Boys Lacrosse Club player consent to participation with the **Timberline Boys Lacrosse Club**, a non-sponsored club sport, pursuant to policy 3577 of the Independent School District of Boise City No. 1 (hereinafter "School District"). We, the undersigned, recognize that the School District does not sponsor the sport insofar as it has no responsibility for oversight of the athletic events, practices, coaches, selection of coaches, coaching decisions, or selection of participants. Rather, the School District's involvement is limited to allowing other entities to offer the sport to students and providing a facility for the club's meetings, practices, and events, as appropriate.

Further, in consideration of the School District cooperating with sports organizers and/or participants, the undersigned parent/guardian and student participant waive any and all claims of potential, alleged, or actual liability against the School District regarding any injury, loss, property damage, or other harm that is or may be sustained by the student participant while participating in the non-sponsored club sport.

The undersigned do hereby release and forever discharge and hold the School District harmless in the event of injury, damage, or alleged harm sustained by the student participant or his/her property during this activity unless such injury, loss, or property damage or alleged harm is the result of gross negligence by the School District.

Further, the undersigned understand that no health care insurance or other insurance coverage may be provided to the participant by the event organizers of the School District. We understand that the parent/guardian and student participant are solely responsible for the costs of any necessary medical care.

We have read this document and fully understand its meaning and our rights regarding the waiver of liability and our agreement to hold the School District harmless.
