

## Qualified

### Establishing a dependable foundation

- Full company assessment that identifies the overall sustainability of the company
- Scoring in Quality, Operations, Management, Sales, and Finance
- Validation of Certs and Quality processes
- Coaching for identified gaps
- On-site audit prior to approving for ASL
- Review of historical track record with industry and customers
- Training and testing for an approved in-house quality manager/inspector to sign off on inspections

## Monitored

### Real-time visibility. Proactive improvement.

- Oversight of in-process activities and outputs
- Live tracking of documentation and product status
- Coaching for gaps found in execution
- Machine-level monitoring for OTD consistency and real-time updates

## Managed

### Handling the details, empowering your vision

- Oversight of production and quality processes
- Capacity and capability matching
- KPI tracking and supplier scorecards
- Targeted coaching to raise performance
- Dedicated Program Management Office (PMO) and SQE support

## Delivered

### Results that speak for themselves

- Reliable, on-time delivery of quality product
- Built-in coaching at every stage to sustain performance
- Compliance, consistency, and customer satisfaction delivered

## EMPOWERING A RESILIENT SUPPLY CHAIN FOR TOMORROW'S FRONTIERS

Let's strengthen your supply chain from the inside out.
