If the crowd is such that it is just harassing “Tiny the Tanker”, jumping on, damaging or creating a unsafe work environment the event is to provide security at the events expense. Rove around/performance may be canceled do to poor weather at our discretion and re-scheduled if required and schedule allows. Mechanical failure will be reported to event staff if it prevents a rove/performance. The cancellation of a rove around/performance due to inclement weather does not effect the Amount Due at Event. In the event of mechanical failure, sickness, accident or emergencies beyond the control of the Firefighter Show, ( Neal Snyder or his employee) which prevents the performance of “Tiny the Tanker” it is understood and agreed that there shall be no claim for damages by either party to this contract.
