Sisy is inspired by the free spirit of the iconic Austrian princess *Sisi*, a vibrant, brave and authentic woman, capable of being reborn again and again.

**That luminous impulse is at the heart of our brand.**

Reborn Design means creating colourful pieces, alive and full of intention: design that accompanies your changes, that celebrates your energy and that blooms with you.

Sisy is design to be reborn.

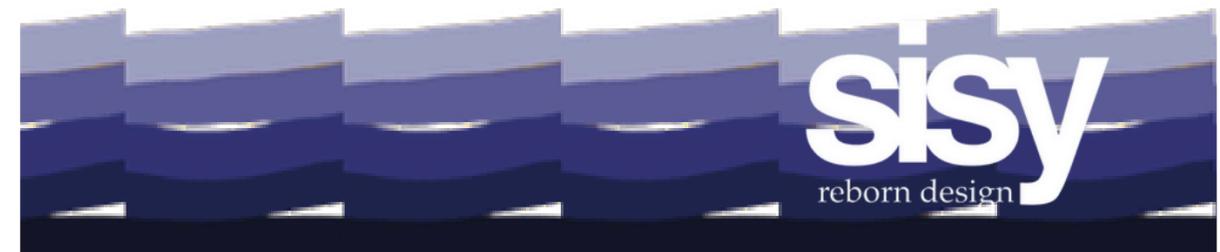

# Calm begins with the space we inhabit.

At Sisy we believe that a place can accompany you without demanding anything.

Therefore, each design - without exception - is born to organise the inner world that inhabits us. **When the environment is organised, so does the mind and the heart expands.** And in that order, calm appears: simple, real and without making noise.

Beauty here is not an ornament; it is a way to make everyday life more kind.

A silent reminder that being well is also learned by looking around.

## RELEASE & HEAL

Ideal for moments when you are looking for movement, emotional clarity and a respite that gives you back to you.

## INTEGRATE & EVOLVE

They are murals that organise, sustain and open the horizon. An invitation, without haste, but with direction.

## EXPRESS & SHINE

They provide vitality, definition. They transform any room into a reflection of who you are today.

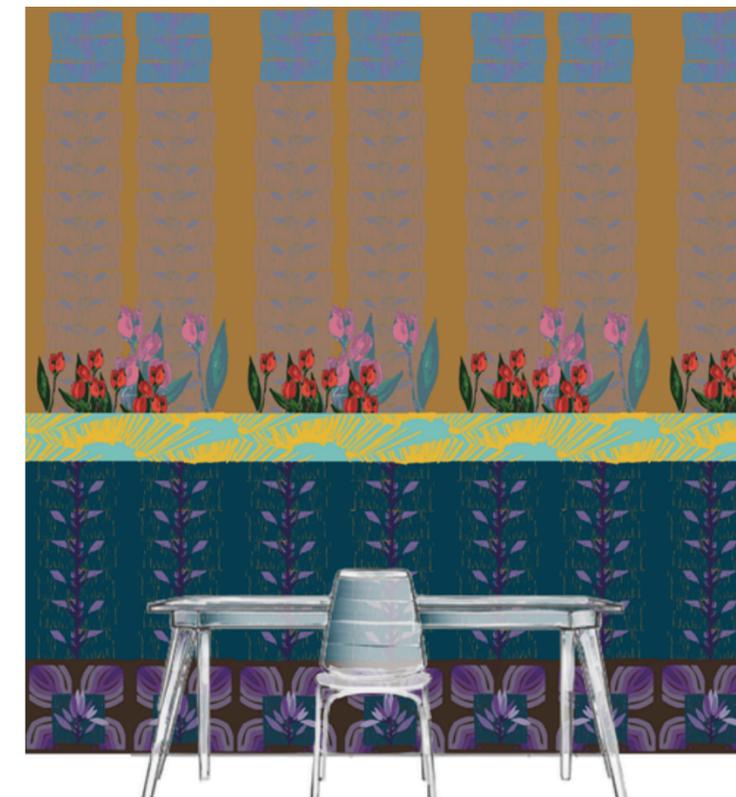

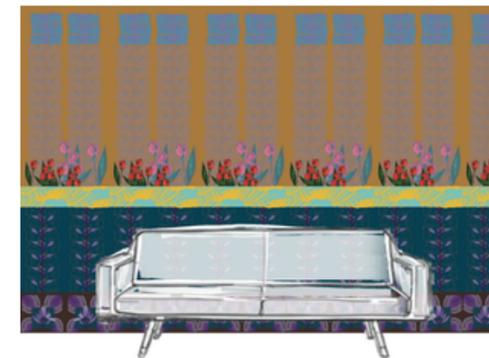

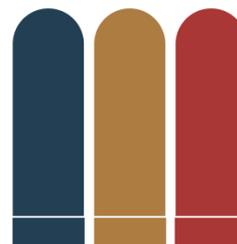

# SPRING

To transmute emotional drought into a flow of inner strength.

Manantial arises from the recognition of an intense emotion - anger, pain, hidden wounds - and from the discovery that what really takes us inside is not anger, but stagnant suffering.

This mural **is to free up spaces and moments when life seems to stagnate.** Ideal for workspaces, offices or home corners where the energy stops.

**RELEASE & HEAL**

# VOLCANIC

To release the strength that emerges from passion.

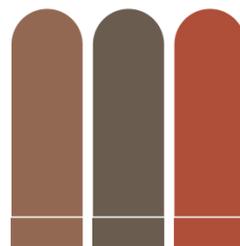

Expansive blooms that imitate the rise of lava and the resurgence of fertile land.

Its visual rhythm radiates daring: a mixture of intensity and lightness that invites you to **let go of control and move with the truth of the body.**

It is a design that drives to live without fear the passion in all its expression.

In halls, corners of creation or spaces where the new is born, Volcanica energises; turns the room into a territory of **freedom and renewal.**

# SPROUT

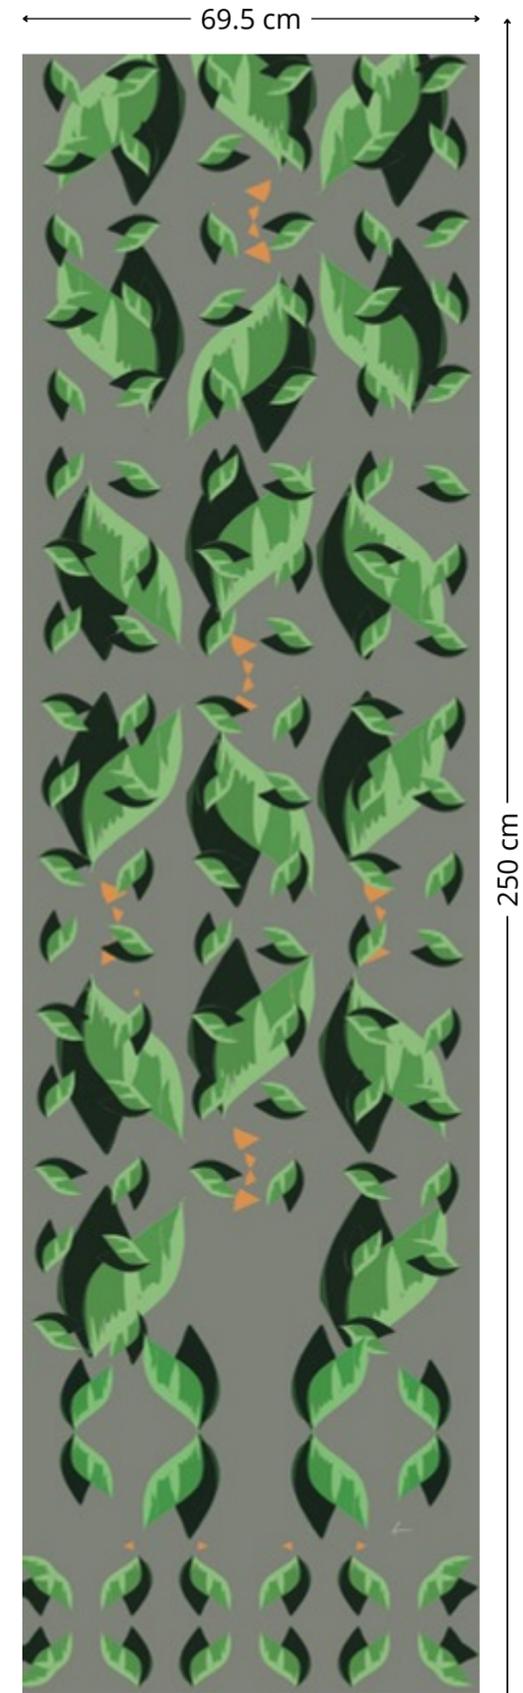

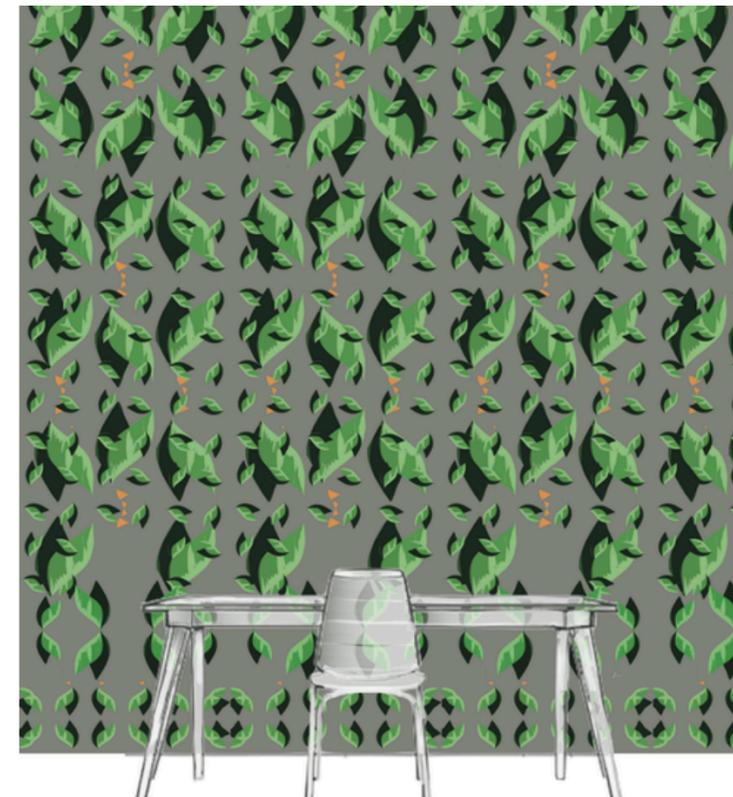

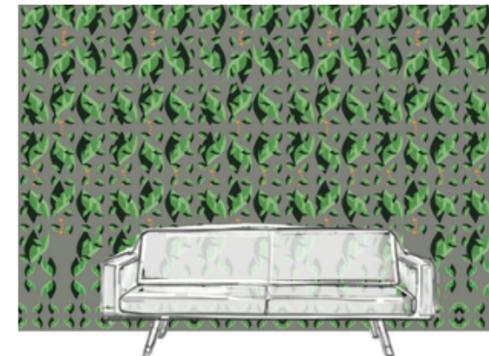

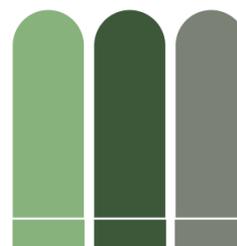

To release the control.

Leaves that emerge against a soft background, like green breaths.

A design that brings **freshness and possibility**, remembering that it is not always necessary to know exactly how to grow: each movement will find its way.

Ideal for spaces where you want clarity, renewal or a beginning that is still taking shape.

**RELEASE & HEAL**

# PRESENCE

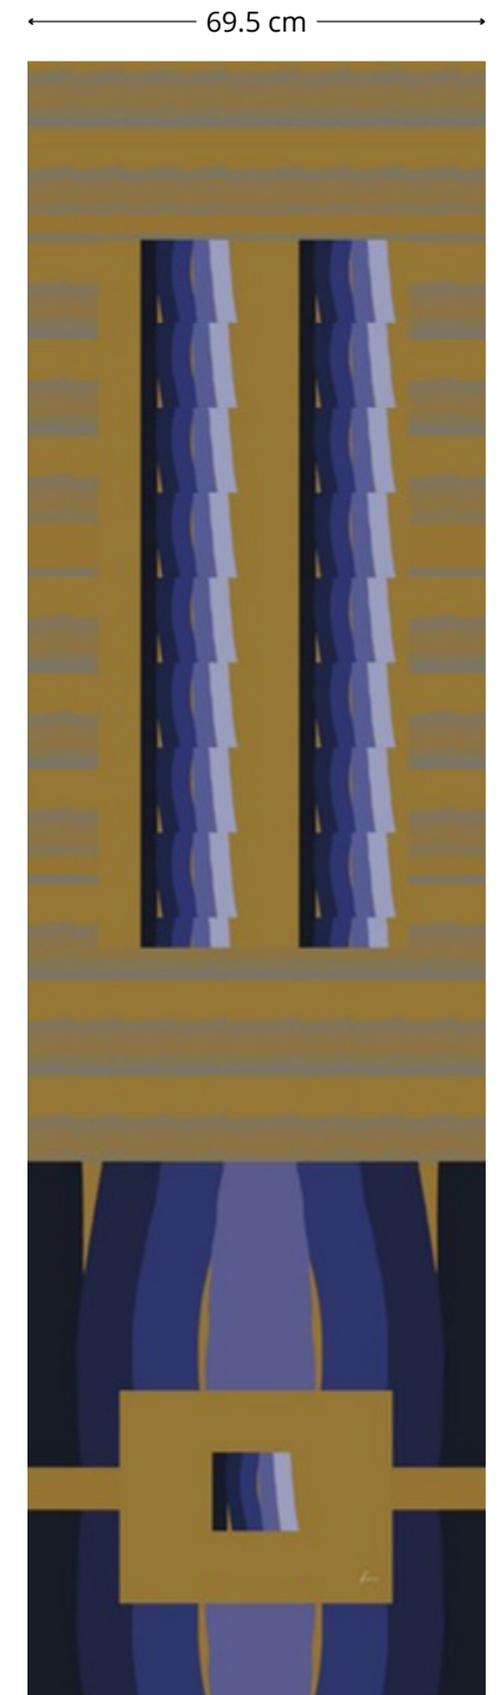

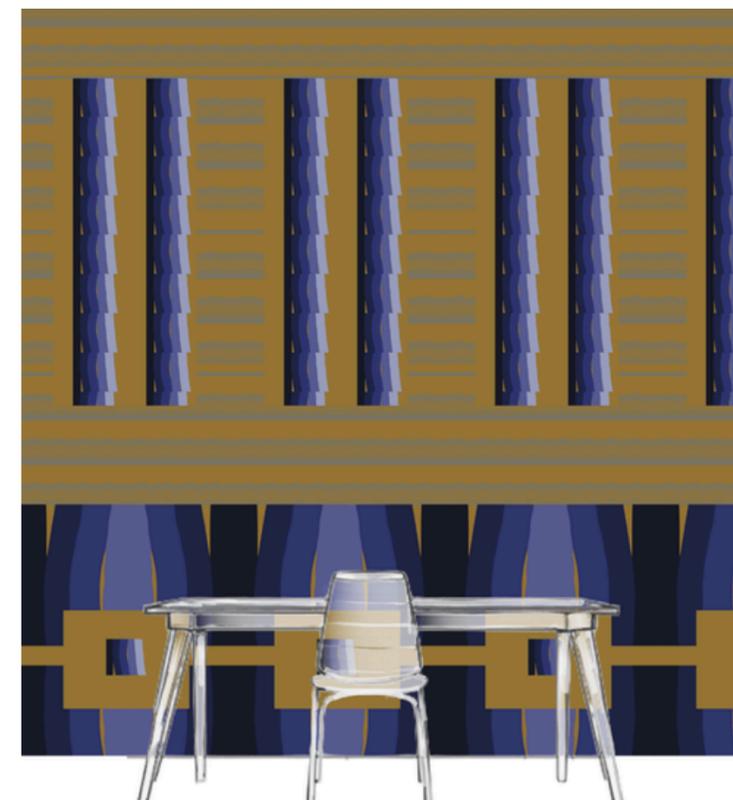

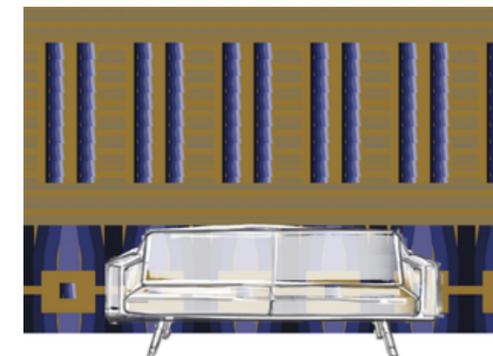

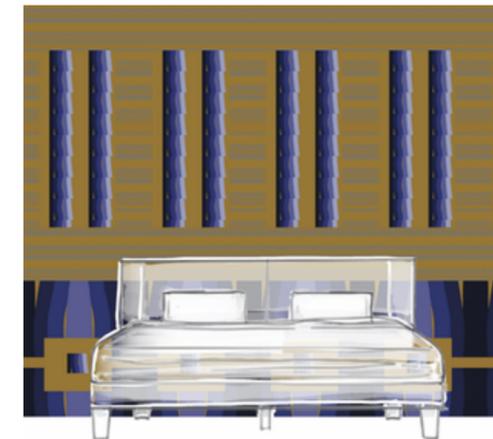

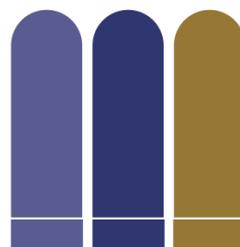

To activate temperance and aplomb.

A warm axis in earthy tones and waves in blues and violets that expand as breath.

It acts as a visual return point: **smooth order, lower the tension and open an inner breath.**

In a workspace or rest, Presence introduces an immediate sensation of soft order—as if the air were settling.

# INHERITANCE

To receive the past as an impulse, not as a weight.

It was born from a dream on the banks of the Nile: a temple suspended between worlds, ancient voices admitting mistakes, and the echo of a past that insists on staying alive. That inner reconciliation - between what we were, what we are and what we carry unnamed - shapes Herencia.

Designed for bedrooms, halls or corridors, **it accompanies processes of emotional care and body reconnection.**

**INTEGRATE & EVOLVE**

# JOY

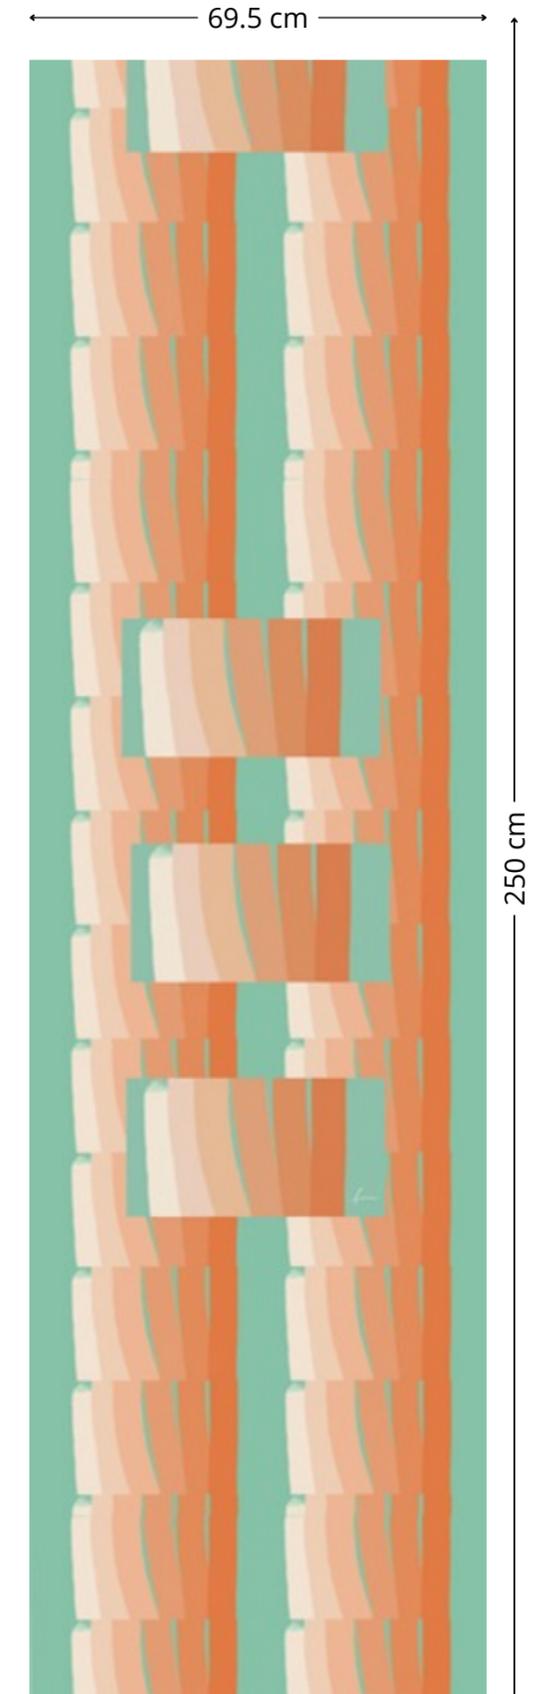

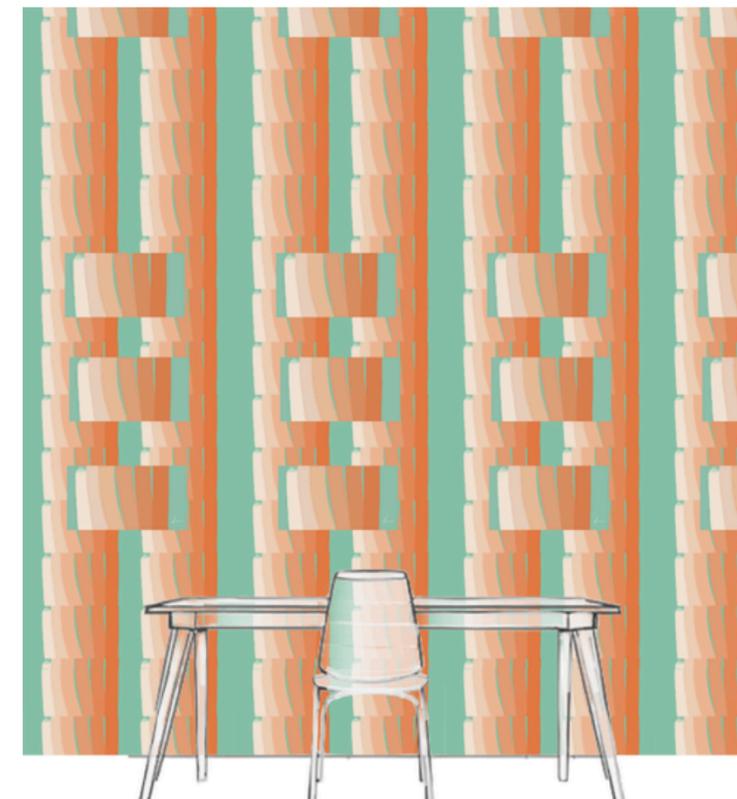

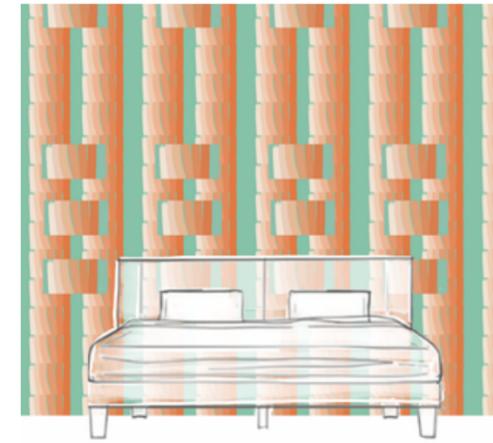

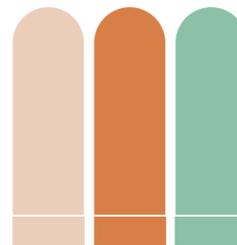

To raise awareness of what you do well.

Vertical composition in corals and soft greens that lets in the light.

It raises the energy of the space with a kind clarity, **an everyday vitality that does not need euphoria to feel present.**

In a workspace, living room or dining room, Alegría brings a friendly clarity; it opens the room, makes it more breathable, more willing.

# THRESHOLD

To transmute anxiety into radical confidence.

It accompanies moments of transformation and beginnings, **remembering that all authentic expansion is born from within** and turns space into a silent reminder of one's own strength.

Designed for bedrooms or studios, it starts from a stellar depth and ascends towards lilacs, fuchsias and greens: a journey of the soul that dares to advance.

**INTEGRATE & EVOLVE**

# ADVANCE

To have confidence in stages of growth.

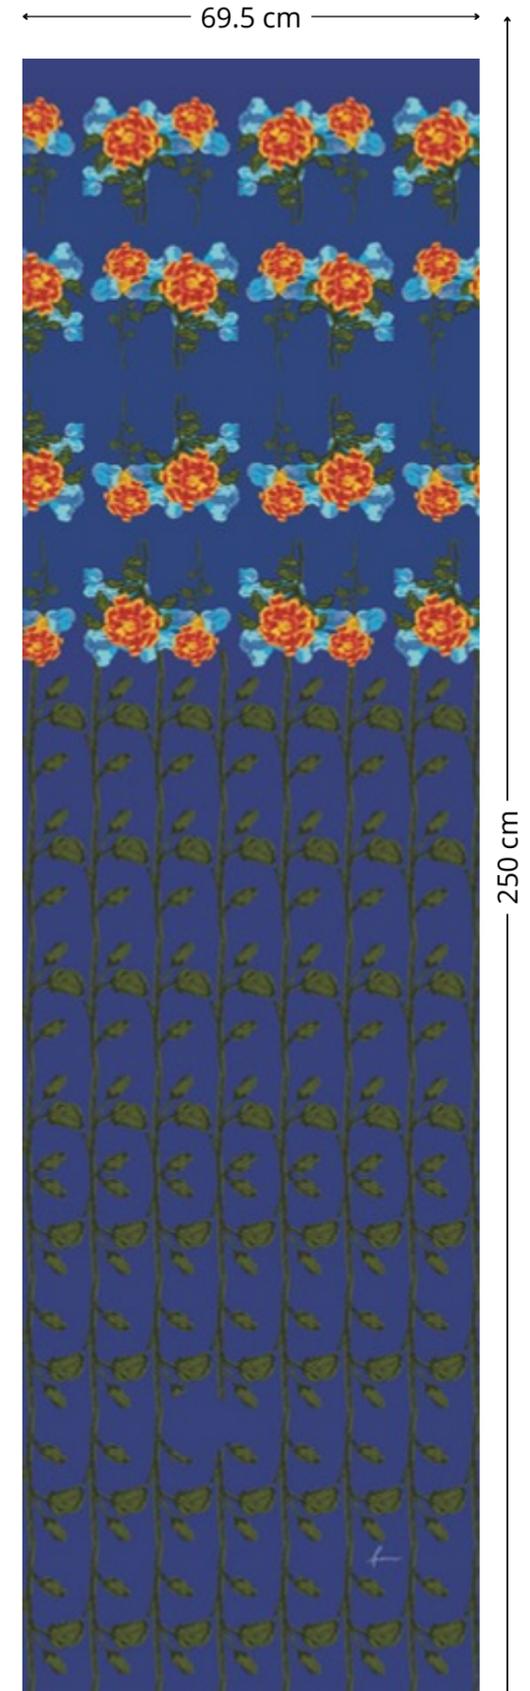

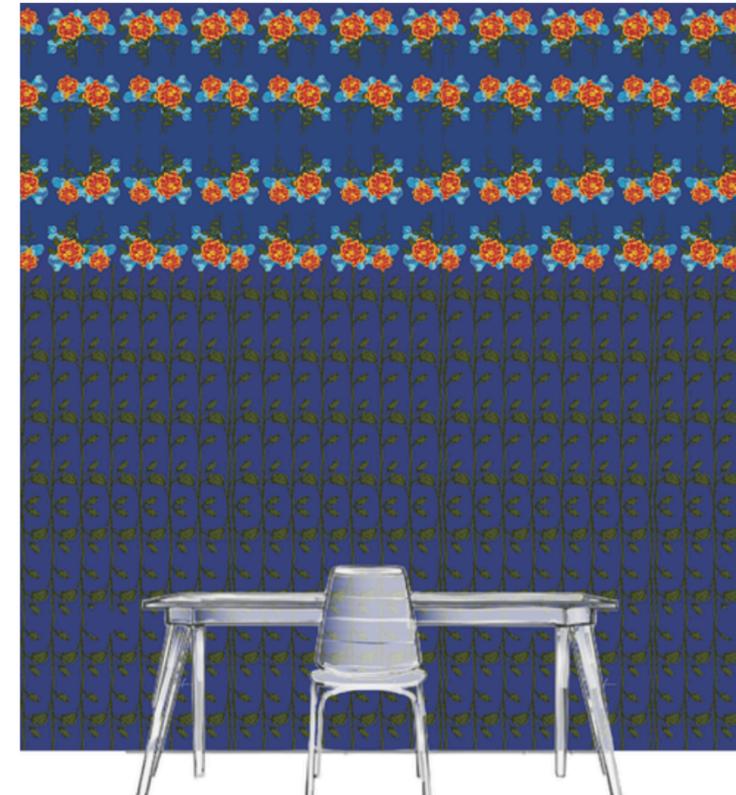

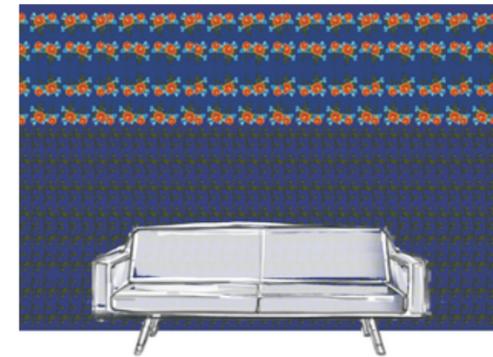

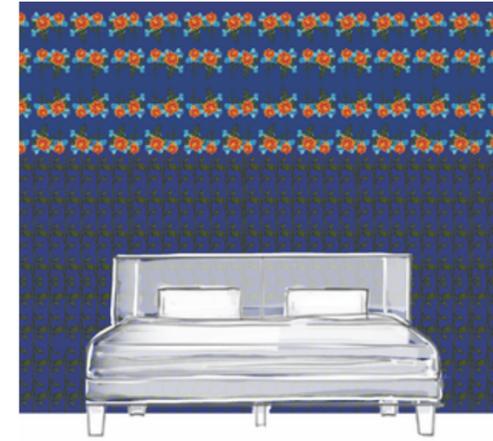

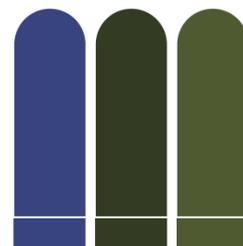

Advance is a silent forward movement.

Branches that ascend on deep blue, marking a constant rhythm that accompanies long processes, goals and focus.

**Move forward without noise, but in a true way.**

In workspaces, study or creation, Avance provides clarity, focus and continuity.

# CLARITY

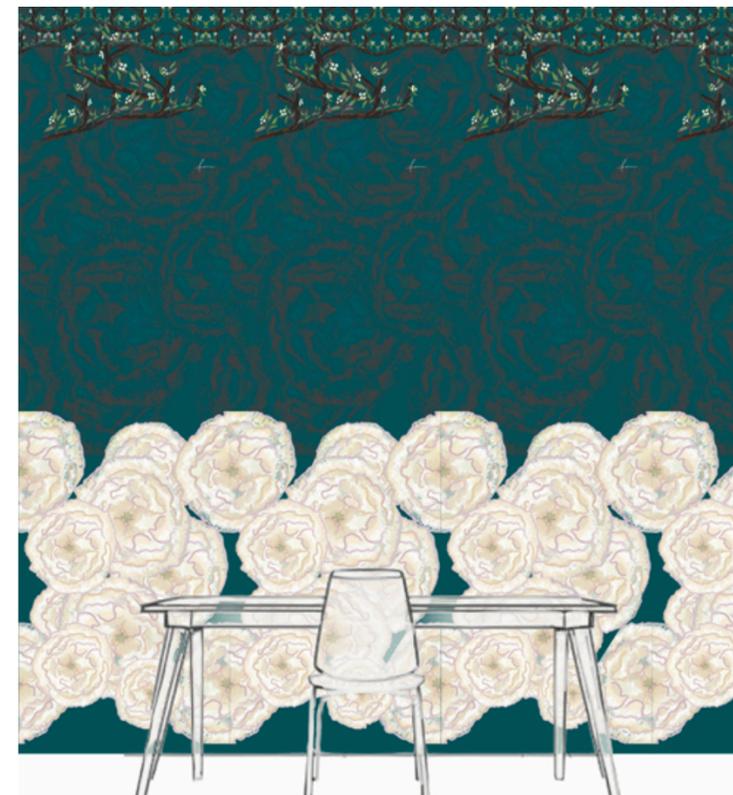

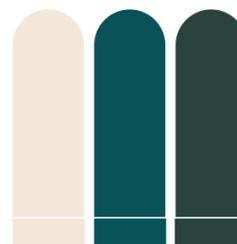

To organise the thought and rest the mind.

Soft composition in deep tones and luminous accents that clear the visual space.

It invites a mental pause: a serene rhythm that **calms the internal noise** and opens a clean horizon to focus on.

It acts as a gesture of kind silence, a **rest that he organises** from within.

In a workspace, study or bedroom, Clarity brings balance; it soes the mind and decreases arguments.

# BRILLIANCE

To regain motivation and your own lustre.

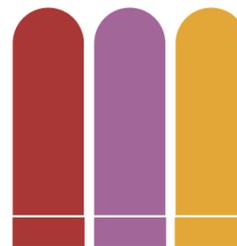

Fulgor is a warm glow that expands without invading.

Layers of moving light that remind us that we are still alive;  
a design that **ignites without forcing and returns the internal brightness.**

It connects us with confidence in ourselves, just for existing.

Ideal for spaces looking for momentum, clarity and a  
luminous energy that invites you to move forward.

# AUTENTIC

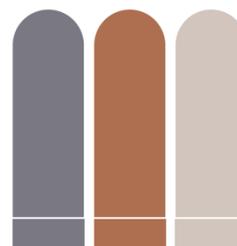

To connect with who you are and project it without fear.

Magical trees on an energetic mandarin background that encourages to show clearly.

The composition combines firmness and warmth, **evoking that intimate mixture between vulnerability and power** that arises when identity is affirmed from the heart.

In workspaces, creation or self-care, Autentic provides confidence; it makes the environment more expressive, without fear, aligned with one's own vital tone.

# BEHIND SISY

I'm **Ivonne Hurtado**, I trained as a biochemical engineer, and over time I made my way as a strategist, communicator, astrologer and interior designer. I have always loved painting, it was in me before anything else and it has always made me happy.

I've been working for years making the invisible visible, looking wide and long is my gift.

With Sisy I shape my most intimate vocation: I design wall papers that not only decorate, but activate spaces, evoke identity and sustain processes of personal transformation.

**My proposal is to help you reveal what is already alive in you - your history, your longings, your truth -** and build from there, with symbolic coherence and aesthetic sensitivity; but above all: with freedom.
