# Calm begins with the space we inhabit.

At Sisy we believe that a place can accompany you without demanding anything.

Therefore, every design —without exception— is born to order the inner world that inhabits us.

**When the environment is organized, the mind also becomes organized and the heart expands.**

And in that order, calm appears: simple, real, and without making a sound.

Beauty here is not decoration; it is a way of making everyday life more pleasant. A silent reminder that being well is also learned by looking around.

**Loyalty and freedom as an everyday choice.**

To be free implies loyalty to oneself and the courage to question one's own truths. To choose again, even when the path is repeated. In that conscious gesture resides a fullness that comes from truly being alive.

Sisy is born from this idea of chosen freedom. Her name combines the indomitable spirit of Princess Elisabeth of Austria, known as Sisi, and the myth of Sisyphus: the understanding that freedom is not a destiny, but a daily construction.

That impulse is at the heart of Sisy. Design that accompanies real processes and shapes spaces where inner life can be organized and expanded.

**Sisy is designed for rebirth.**

RELEASE & HEAL

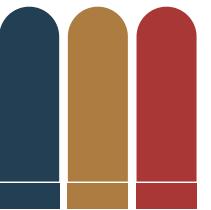

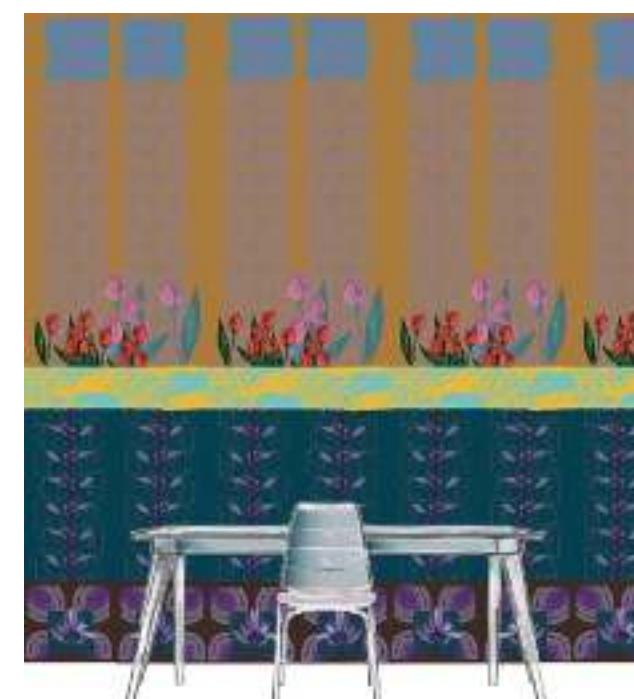

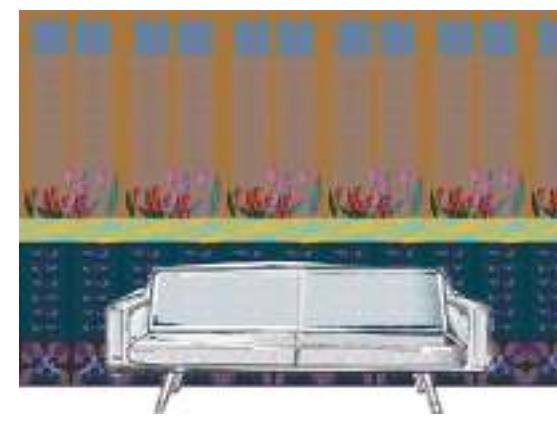

# MANANTIAL

To transmute emotional drought into a flow of inner strength.

Manantial arises from the recognition of an intense emotion — anger, pain, hidden wounds — and the discovery that what really takes hold of us inside is not anger, but stagnant suffering.

It helps **to differentiate pain from suffering and free us from internal bonds.**

This mural is designed to liberate spaces and moments where life seems to stagnate. Ideal for workspaces, offices, or corners of the home where energy has stalled.

# VOLCANICA

RELEASE & HEAL

# VOLCANICA

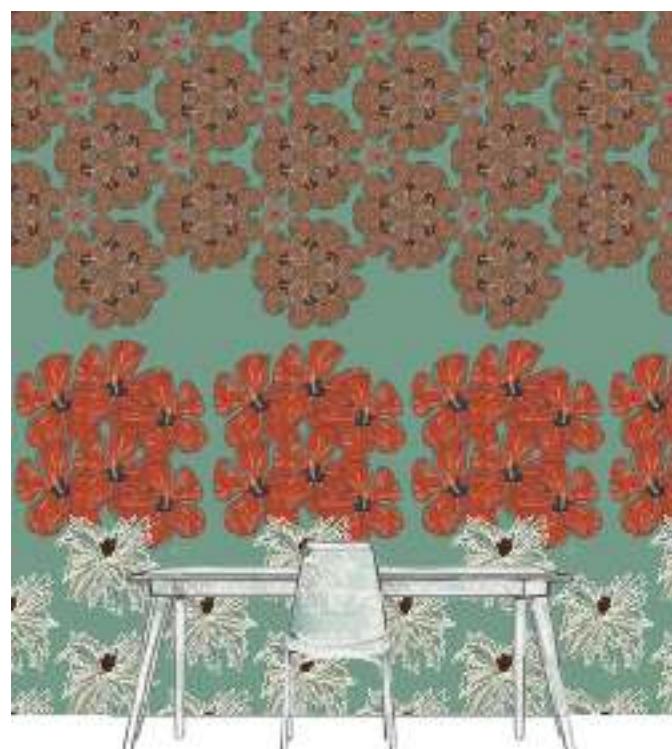

To unleash the power that emerges from passion.

Expansive blooms that mimic the rise of lava and the resurgence of fertile land.

Its visual rhythm radiates boldness: a mixture of intensity and lightness that invites you to let go of control and move with the truth of the body.

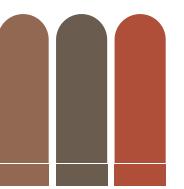

It is a design that **encourages you to live passion in all its expression without fear.**

In hallways, creative corners or spaces where something new is born, *Volcanica* energizes; it transforms the room into a territory of freedom and renewal.

# PRESENCIA

To activate temperance and composure.

A warm axis in earth tones and waves in blues and violets that expand like breathing.

It acts as a visual turning point: it gently orders, lowers tension, and **opens an inner respite.**

In a workspace or rest area, *Presence* introduces an immediate sense of gentle order—as if the air were settling.

INTEGRATE & EVOLVE

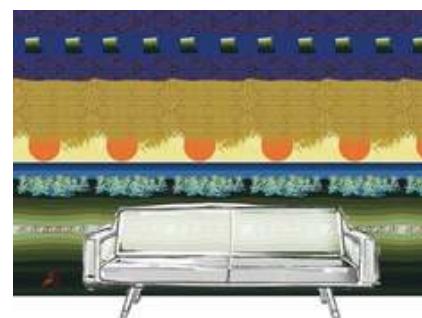

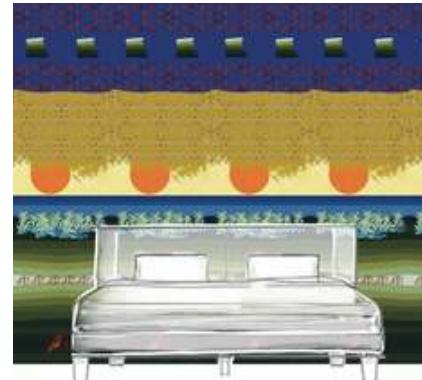

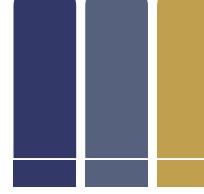

# HERENCIA

To receive the past as an impetus, not as a burden.

It was born from a dream on the banks of the Nile: a temple suspended between worlds, ancient voices admitting mistakes, and the echo of a past that insists on remaining alive.

**That inner reconciliation**—between what we were, what we are, and what we have left unnamed—gives shape to Herencia.

Designed for bedrooms, hallways or corridors, it supports processes of emotional care and body reconnection.

A photograph of a hallway featuring a large-scale, colorful mural on the wall. The mural consists of vertical stripes in shades of orange, teal, and pink, with a repeating geometric pattern of squares and rectangles. A white lamp with a pleated shade sits on a dark wooden console table in front of the mural. A large vase filled with white flowers is also on the table. The hallway has white paneled walls on either side.

# AVANCE

To have confidence during growth stages.

Advance is silent forward movement.  
Branches that rise above deep blue,  
marking a steady rhythm that accompanies  
long processes, goals, and focus.

**To move forward quietly, but in a  
genuine way.**

In workspaces, study or creation spaces,  
Avance brings clarity, focus and continuity.

To organize your thoughts and rest your mind.

Soft composition in deep tones and luminous accents that clear the visual space.

It invites a mental pause: a serene rhythm that **quiets the internal noise and opens a clear horizon to focus on.**

# FULGOR

To regain motivation and your own inner sparkle.

Fulgor is a warm glow that expands without invading.

Magical trees against an energetic mandarin background that encourages clarity.

The composition combines firmness and warmth, evoking that intimate mix of vulnerability and power that **arises when identity is affirmed from the heart.**

In workspaces, creative spaces or self-care, Autentic brings confidence; it makes the environment more expressive, without fear, aligned with one's own vital tone.

# CALIPSO

EXPRESS & SHINE

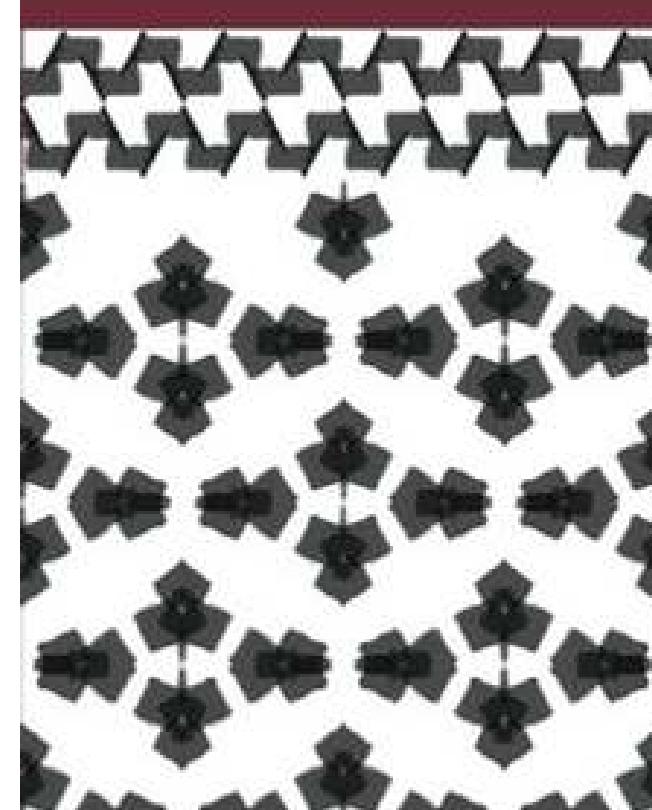

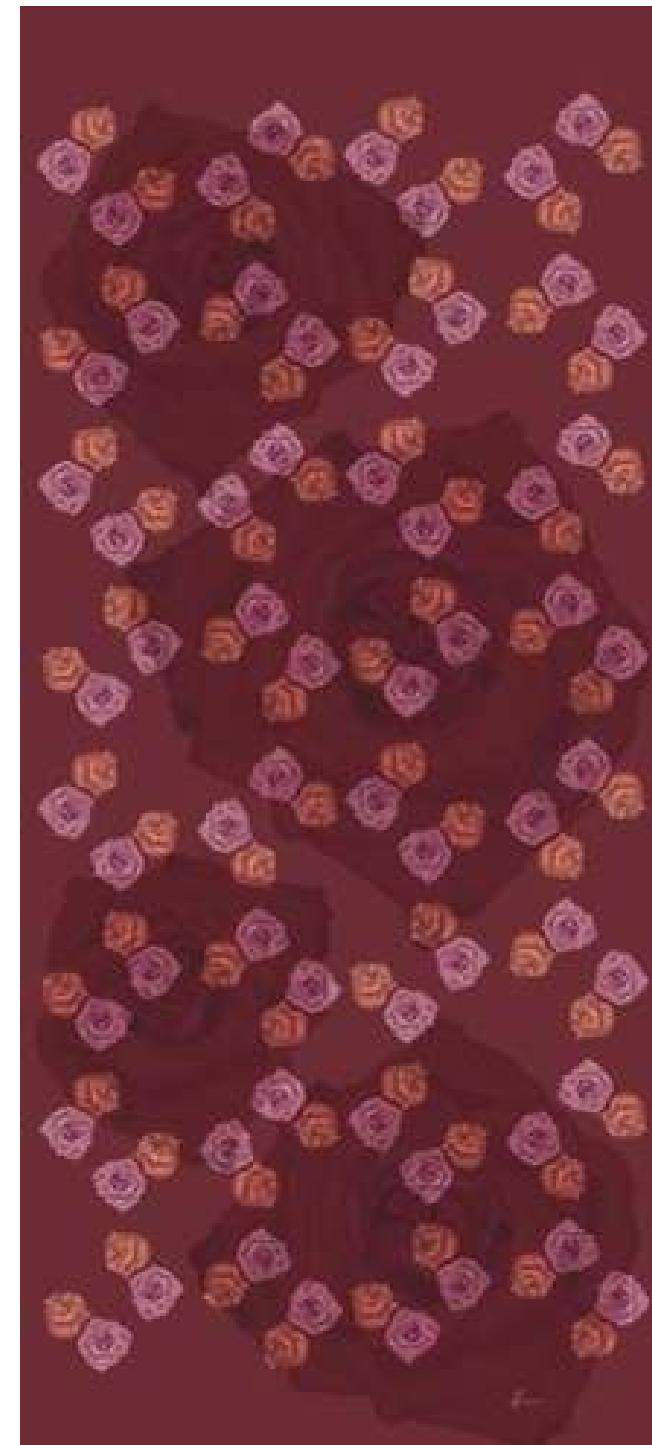

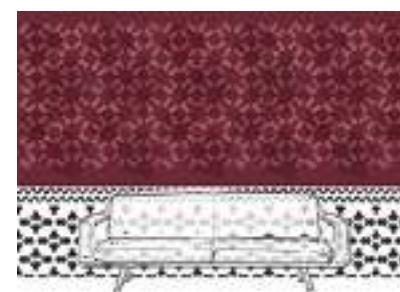

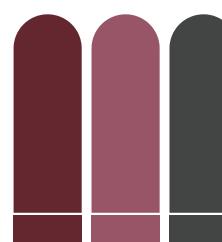

# CALIPSO

To love well.

Calypso is born from the understanding that desire does not disappear when a love is left behind: it transforms.

In the myth, Calypso loves, offers to stay, and finally chooses to let go, not from renunciation, but from the certainty that her **vitality does not depend on holding onto another**.

This design accompanies processes of reconnection with a mature sensuality, inhabited in the body and in everyday life.

# BEHIND SISY

I'm Ivonne Hurtado. I trained as a biochemical engineer, and over time I've made my way as a strategist, communicator, astrologer, and interior designer. I've always loved painting; it was a part of me before anything else, and it has always made me happy.

I have been working for years making the invisible visible; seeing wide and long is my gift.

With Sisy I give shape to my most intimate vocation: I design wallpapers that not only decorate, but also activate spaces, evoke identity and support processes of personal transformation.

My proposal is to help you reveal what is already alive in you —your history, your desires, your truth— and build from there, with symbolic coherence and aesthetic sensitivity; but above all: with freedom.
