Partner Book

WELCOME

We know that the brands you choose to work with also speak to the identity of your projects.

That's why we'd like to invite you to discover Sisy and see whether our way of understanding design might find a place among them.

If our perspective finds a place in one of your projects, we want working together to feel close, agile and simple.

froune.

sisy reborn design A CLEAR STRUCTURE today and over time

Our offering is organized into three permanent collections.

Each new design becomes part of one of them, maintaining a clear and consistent structure.

This way, our collections can evolve without changing how you discover, specify and recommend them.

HOW WE WORK

Every project receives direct support at each stage:

- Selection
- Quantity calculation
- Quotation
- Production
- Shipping

We prefer clear processes, so you can focus on your project.

RESOURCES FOR OUR PARTNERS

We provide the tools you need to specify our designs with confidence.

- Catalogues
- Samples
- Digital assets
- Support when your client needs additional guidance

A LONG-TERM COLLABORATION

We believe design can play a role in something deeply human: the way we shape our inner world and give form to the way we inhabit the world.

That's why we choose to collaborate with architects, interior designers and showrooms who share this perspective.
