

Rotary Club of Hermann Park

August 18, 2017

Yates Feeder Pattern Principals:

The Rotary Club of Hermann Park (RCHP) wishes to formalize its relationship with your schools.

It is proposed that this brief letter of engagement sets out the respective commitments of the parties, Yates High School, Cullen Middle School, Blackshear Elementary School, Lockhart Elementary School and the Rotary Club of Hermann Park to jointly work toward improving parental and community engagement and to contribute to improved student outcomes.

RCHP will provide community-based support to the four schools in three areas:

1. **Mentoring and Tutoring Coordination** - It is proposed that the RCHP will focus on coordination of mentoring efforts, assurance of comprehensive assessment, and growing synergy among mentoring and tutoring programs at your schools.
2. Assist the schools in recruiting parents and community members to join and support **PTO/PTA** organizations.
3. Work with AROS and other public and private organizations to negotiate an **HISD Community Schools policy**. RCHP will then assist the schools with Community Schools implementation.

School principals are expected to provide a cooperative environment, access to non-confidential student, parental and teacher data, and to promote the development of programs relative to the three areas of focus referenced above.
