PSI

PSI ADVANTAGE DISCOVERY ™
POWERED BY THE CHECKMATE 4D NEURAL NETWORK ™

What you can't find, you can't see.

What you can't see can hurt your company

Your organization faces critical risks that current due diligence tools cannot discover. The information you need is buried in terabytes of hidden global data – if only you could locate the proper sources, quickly search massive databases, and reliably correlate everything to the correct target.

PSI Advantage provides organizations and analysts with the power to **discover the undiscoverable.** PSI Advantage employs a combination of explainable AI and machine learning techniques to comb through vast amounts of structured and unstructured data in search of key connections and insights. This advanced solution incorporates PSI's proprietary data engines, relationship patterns specified by subject matter experts, and analytics to support discovery using human insight and AI analysis.

PSI Advantage Discovery provides a fully transparent and deeper data-driven environment, which leads to better strategic awareness and informed decision-making.

ELIMINATE SURPRISE | PENETRATE UNCERTAINTY | DISCOVER THE UNDISCOVERABLE
Can your organization afford to move forward in the dark?

PSI ADVANTAGE DISCOVERY GIVES YOU:

Confidence
