

Worship Without Worry

The ASPP W³ Program Assessment, Training & Roadmap

Training for Houses of Worship

The Worship Without Worry (W³) Program is custom-built for Houses of Worship, and begins with a basic, straightforward **Assessment** conducted by our community of experts, so that a baseline is established to build upon.

The W³ 4-hour P.R.O. Model **Training** Workshops are built for medium-sized (10-200 person) audiences and are comprehensive “give and take” style seminars that are popular with all audiences. These training workshops are custom-tailored for each client, so we ensure that the training fits YOUR needs and desires.

The W³ Program concludes with an After-Action Report, providing you with a clear **Roadmap** to the future.

Why Choose ASPP?

Our team, led by Active Shooter Expert Chris Grollnek, is composed of experienced FBI/HRT, CIA, and military specialists who offer unparalleled active shooter preparedness training. Our approach is not only highly informative, but also easy to understand and implement, making it accessible to individuals of all skill levels. Make the smart choice and select the team with the most experience.

THE P.R.O. MODEL PREVENTION. RESPONSE. OPTIONS.

Introducing the P.R.O. Model, a revolutionary training program designed to prioritize prevention in active shooter situations. Developed with the United States Department of Justice, P.R.O. focuses on the 'The 4 Ps' – People, Place, Police, and Perpetrator.

ASPP P.R.O. MODEL

Prevention, Response, Options is based on the following three principals.

- ▶ Emphasize the importance of PREVENTION and educate people on how it is a viable option
- ▶ Adapt and improve RESPONSE strategies by incorporating new insights gained from recent incidents
- ▶ Achieve optimal results by reducing or eliminating deaths and injuries through providing customized training OPTIONS to clients and their staff

P.R.O. THE MODEL IS A GAME CHANGER IN ACTIVE SHOOTER PREPAREDNESS. DON'T WAIT, PROTECT YOURSELF AND YOUR SCHOOL TODAY.

ABOUT ACTIVE SHOOTER PREVENTION PROJECT

The Active Shooter Prevention Project (ASPP), founded by Chris Grollnek, is dedicated to providing the tools and training necessary to prevent active shooter incidents. The team is composed of top law enforcement and security professionals from around the world.
