Every effort is made to ensure accurate colour reproduction for model and product photography. Due to limitations with printing, some colours may vary from the actual garment colour. Pantone numbers for heather apparel are taken from the predominant shade.

Tout a été mis en œuvre pour assurer une reproduction précise de la couleur du modèle et du produit sur la photographie. En raison des conditions d'impression, certaines couleurs peuvent être différentes de la couleur réelle du vêtement. Les numéros de Pantone pour les chinés sont basés sur la nuance prédominante.
