# 01 Company Details

PART ONE

## PART 01

# CloudBoost is founded

### core areas

September 26, 2023 is a milestone moment. It is on this day that the company's founder and like-minded partners decided to establish Cloud Boost Technology Advertising Company, aiming to provide unique social media promotion solutions for global brands and content creators.

At this time, the company not only gave birth to a platform full of creativity and potential , but also opened the prelude to a new era of traffic marketing .

# PART 01

## Registration code

1. At the beginning of the company's establishment, the Cloud Boost team began to conduct comprehensive and penetrating research on the market, and conducted an in-depth analysis of the current status and future trends of Internet advertising, social media interaction, and self-media platforms. Through accurate data collection and user behavior analysis, Cloud Boost quickly develops practical strategic deployment plans.

After more than a year of internal trial operation the company has not only achieved a mature operating model, but also gained a large share of the market orders. This shows that there is still room for continued growth in the market. On October 8, 2024, the company received the license and legal certification from the Australian government.

The company's registration number is: 681 367 340

For more information about the company, you can check the company's registration number through this link: <https://connectonline.asic.gov.au>

# 02 Service Content

1 . I nnovation in social media interaction model : I n order to help brands and individuals obtain traffic faster and more effectively, CloudBoost innovated the like interaction system to elevate user experience to a new level.

2 . M arket seg mentation and precision marketi ng : Based on an i n -depth understanding of different target markets, CloudBoost customizes personalized promotion strategies for various customers to ensure that advertisements can accurately reach core audiences and maximize brand exposure and conversion rates

3. Data-driven decision-making: By integrating big data and advanced algorithmic analytics, we provide our clients with real-time market feedback to help them make timely adjustments to their marketing strategies to stay ahead of the competition.

Within just a few months of the company's founding, CloudBoost has quickly penetrated the social media promotion market with its keen insight into the industry and the professional collaboration of its team members, and has established partnerships with a number of leading brands in the industry.

During CloudBoost's trial period, the founder, Mr. Anthony, not only led the team to optimize the company's business model, but also actively filed the relevant licensing applications with the Australian Federal Government to ensure that the company complies with the local legal and regulatory requirements every step of the way. As an innovative company dedicated to the integration of technology and advertising industry, CloudBoost understands the importance of operating within the framework of legal compliance.

After nearly a year of internal trial operations the company has not only achieved a mature operating model, but has also gained a significant share of the market. This shows that there is still room for continued growth in the market. On October 8, 2024, the company was granted a license and certification by the Australian government.

### Service Scope

- CloudBoost Technology Advertising is an innovative advertising agency focused on helping media, commercial brands and all self-published or individual bloggers gain traffic and visibility through likes. We are committed to providing powerful and effective social media promotion solutions for businesses and content creators to help them stand out in the competitive digital world.

- As the number of global Internet users continues to grow, especially with the popularity of mobile devices and social media, the number of users on social media platforms has reached billions and is set to remain strong in the coming years. According to the data, the number of global Internet users has exceeded 5 billion, while the number of users of self-publishing platforms is also climbing, with the world's major short-form video platforms and social media outlets, such as Instagram, YouTube, and Facebook, having become the most active places of interaction between content creators, brands, and consumers.
- Against this backdrop, CloudBoost is able to capitalize on this huge and continuously expanding user base to help media and brands quickly engage their target audience. Through our unique point-and-click interaction system, our clients can increase social media visibility and engagement in a short period of time, gaining wider exposure and thus more business opportunities.

# PART 02

## Our services include

### Self-media traffic optimization:

increase the exposure and interaction rate of social media accounts through real and effective likes and interactions.

### Branding strategy:

customized social media marketing solutions for brands to help them expand their audience.

### Advertising management and consulting:

assisting clients in optimizing advertising content, improving placement results, and ensuring accurate coverage of target groups.

## PART 02

# Our services include

- In the future, the number of users on the Internet and self-publishing platforms will continue to grow exponentially, especially among the younger generation and in emerging markets. With the rise of short-form video content, live streaming and user-generated content, social media will become the main battleground for branding. cloudBoost will continue to help clients capitalize on this trend through its accurate liking and interaction services to expand their market share and take the lead in the increasingly fierce competition.
- We believe that through continuous innovation and a deep understanding of market needs, CloudBoost will become a leader in the field of social media traffic boosting in the future, helping more brands and creators achieve success.

## Nike – Digital Marketing and the Sports Industry

Nike has successfully increased global brand exposure through a strong digital marketing and social media strategy. Nike directly engages with millions of users around the world by partnering with athletes and fitness influencers and utilizing social media advertising, interactive campaigns and content creation.

## Coca-Cola – Creating interactive experiences through digital platforms

Coca-Cola increased brand exposure through digital platforms and interactive advertising campaigns. For example, the “Share a Coke” campaign created huge user interaction by putting consumers' names on Coke bottles and combining it with social media promotions.

## Airbnb – Digital Platforms Reshaping the Travel and Lodging Industry

Airbnb has transformed the business model of the traditional hotel industry by using a digital platform that allows hosts and travelers to connect directly through the Internet. Through digitalization and strong marketing, Airbnb has not only increased its brand exposure, but also driven economic benefits for millions of hosts and service providers worldwide.

## Glossier – Digital Native Brands and the Beauty Industry

Glossier is a beauty brand that has risen to prominence using social media and e-commerce platforms, quickly building strong brand awareness through user-generated content and social media interactions. Glossier has relied on platforms such as Instagram to quickly expand the brand's reach by encouraging users to share their experiences with the products and interact with them.

## Tesla – Digital Marketing and the Expansion of the Electric Vehicle Market

Tesla utilized social media and online sales strategies to rapidly increase global exposure and attract a large number of loyal consumers. Tesla spread its technological innovations and environmental protection concepts globally through digital advertisements and content marketing, and opened up the global market by realizing direct sales of its products through online channels.

## Digital Age

In this digital era, many well-known brands and emerging enterprises through their own advantages and the Internet media platform, using the platform advantage or some well-known blogger popularity and traffic for the brand to continue a wide range of visibility through digital sales to attract more customers to buy their products online.

## Marketing area

It has been a trend of the times that in the digital age, social media advertising is growing rapidly and has become an integral part of the marketing landscape. If we have been inseparable from the Internet, and even spend most of our free time every day on short video platforms view to spend time.

## Big Data

Most people will find that short video platforms will recommend you based on what you like to watch, and will also analyze your personality and hobbies through data to recommend relevant products for you. Under big data, we will be completely transparent, and this trend will become more and more accurate and popular.

## PART 01

# CloudBoost is founded

## Market Demand

The users of the internet are constantly climbing, which means that the market demand is expanding. But the only thing that remains constant is that you need to have market traffic in order to meet the goal of visibility and exposure. CloudBoost is a technology advertising company that helps any legitimate individual and legitimate business gain visibility and exposure on major self-publishing platforms, and to fulfill this order demand we need a large number of like-minded workers to work together for the future.

# Conditions of joining us

## PART 03

# Basic conditions

Age must be  
between 18 and  
60 years old

As a legal enterprise, we need to uphold the spirit of enterprise and adhere to the legal provisions. Only when you reach the legal age can you join us. At the same time, we also encourage friends who have reached the legal age to actively join us. Different age groups can bring different business concepts to the company and enrich each other.

Have a mobile phone  
and social media  
platform account

As a member of CloudBoost, we require employees to have a mobile device and basic knowledge of the Internet and social media accounts.

Have a sense of  
responsibility  
and tolerance

As a member of CloudBoost, we oppose any religious and racial discrimination. We are committed to creating a friendly communication community where everyone can be treated fairly and politely.

”

## Where does our income come from?

CloudBoost is a technology advertising company that helps legal individuals and legal companies gain visibility and exposure on major self-media platforms. Our service targets include (bloggers, actors, singers, dancers, artists, painters, etc.), brands and companies, event organizers and communities. These groups all need to increase their visibility and influence, so CloudBoost has long-term cooperation with these groups.

For this reason, the groups we serve also need to pay us commissions, and the company will allocate the order commissions to each employee account according to different employee levels.

### 1. Screening employees who work hard

Deposits can be used as a screening mechanism to ensure that only those who are truly interested in the work and have a strong sense of responsibility will join the company. By requiring a deposit, the company can reduce the instability caused by frequent staff turnover and avoid recruiting employees who may leave in the short term.

### 2. Constrain employees to comply with company terms

Deposits can be used as a "constraint mechanism" to encourage employees to comply with company rules and regulations and work terms. If an employee violates the contract or company policy, the deposit may be used to offset certain losses or fines.

### 3. Protect company trade secrets and blogger privacy

Deposits may be used as a preventive measure against employees leaking trade secrets. If an employee leaks company secrets without authorization, the deposit can be used as partial financial compensation.

At the same time, this can also protect the privacy of bloggers. Usually, companies or bloggers want to gain popularity and exposure through the assistance of the company and do not want outsiders to know this fact. At the same time, this is also to maintain the image of individual bloggers and companies.

## PART 03

# Working principle

In fact, our working method is very simple. All we need to do is use our own real self-media social account data to like the client's video works and forward or subscribe to them to gain social interaction. Help them get initial traffic to get big data push and get more exposure.

By tracking user behavior, CloudBoost can optimize the content push algorithm. Every like, share, and comment will affect the recommendation mechanism, helping the content appear on the homepage of more potential users. This will enable content creators to gain more subscribers and further increase exposure and popularity. Bloggers will also become popular on the Internet faster through our cooperation with us, and gain greater commercial value for themselves in the continued popularity.

Finally, as a privacy worker of CloudBoost, we need to protect the blogger's information in all aspects, and we cannot contact the blogger privately, which will cause the risk of breach of the cooperation agreement between the two parties.

Because every well-known blogger and enterprise will have their own fanatical fans, they hope that their favorite bloggers can win people's attention through their own strength rather than through the power of money to gain this status.

## Comparison with illegal companies

CloudBoost is an Australian-based company that has been legally approved by the government. CloudBoost not only has legal documents and relevant certificates issued by the government. More importantly, the company has a legitimate and real source of order income. Through long-term cooperation and market expansion, the company can establish a rich order commission ecosystem by serving customers.

Compared with illegal corporate Ponzi schemes, they do not have any substantial source of income. They only rely on the funds of investors who rely on new participants as a source of income. They lack actual business activities and have unclear requirements for participants. Before making any decision, you must fully understand and evaluate the company and the opportunity to protect your interests and asset security.

As a member of CloudBoost employees, the company hopes that everyone can learn how to identify whether a company has a legitimate effect and a substantial source of income. At the same time, the company adheres to maintaining the company's reputation and protecting the interests of employees to avoid the participation of commercial espionage. The company refuses to invest in any illegal company or people in the same industry to join the company.

- 1、 Fulfill the customer's order correctly as requested, not uploading screenshots of incorrect orders with expired ones. Not to make bad comments on the content of the work, as well as to protect the privacy of the people involved.
- 2、 As a member of CloudBoost, you are expected to participate actively in important group meetings and express your opinion. In your spare time, you can also interact with your colleagues in the group to learn more about how to increase your income.
- 3、 Work reports must be submitted to their respective team groups upon completion of work orders each day, allowing the manager to monitor that everyone is completing their work on time. It is prohibited to submit outdated work reports and not to fail to respond to messages from the manager for long periods of time.
- 4、 As a member of CloudBoost, we should actively protect the company's reputation and image. If someone tarnishes the company's reputation we should stop such behavior at the first time.
- 5、 As a member of CloudBoost, it is our responsibility to contribute to the development of the company in whatever way we can, and to help the company gain wider visibility and reputation in the region in order to strive for a broader manpower market.
- 6、 Individuals are prohibited from registering multiple accounts, which will be considered a violation. And in order to maintain more authentic and effective orders the company prohibits multiple accounts from working with the same network.

CloudBoost Technology

# CloudBoost Trivia

PART FOUR

**Q: What self-publishing platforms does CloudBoost serve?**

A: So far our service is temporarily available on YouTube, instagram and Facebook. But as our company's workforce grows, we will also be expanding to a wider market, aiming to help more influencers increase their visibility on social media.

**Q: Does CloudBoost have to be done at a specific time or place?**

A: This is a free online job that we can easily do at any free time of the day. There is no restriction on location and it does not conflict with your main job.

Q: How long does it usually take for a successful withdrawal to reach the eWallet?

A: The paycheck will reach your exchange e-wallet within 0-72 hours.

Q: Can I invite my family and friends to join the company?

A: In order to gain access to a wider labor market to fulfill more orders, the company actually encourages people to invite their friends to join the workforce. There are also incentives for recruiting employees, and the company is committed to helping more families get a stable extra income.

Q: Is there an age requirement to work at CloudBoost?

A: We are a national company that complies with regulations that prohibit the company from recruiting minors to join. We welcome any adult over the age of 18 to join.

Q: Is this the only company in the industry?

A: No company in the world can monopolize the whole industry, especially the online self advertising service industry. There is a lot of market space in this industry and more and more companies in the same industry will appear in the future. But we need to learn to distinguish whether it is a regular legitimate company. Just like a coffee shop. Clothing store. Restaurants. Restaurants. The energy sector and so on, they never stop competing in the same industry.

Q: Will I be penalized in any way if I don't complete my work that day?

A: If you just don't have anyone to complete your work for a day you will not be penalized in any way, but if you don't complete your work for 3 days you will have your employee points lowered. However, please complete as many jobs as you can for each day as you will not be able to earn for that day if you do not complete your order.

Q: What should we do if someone claiming to be a CloudBoost manager contacts you privately and asks you to pay or sends you a link?

A: CloudBoost managers are not allowed to have any money transfers with their employees, so if someone claiming to be a manager asks you for payment then he must be an impostor. Please notify your manager or the group administrator at the first opportunity if you find this type of incident.

## Q: Is there an employee contract for working with CloudBoost?

A: When you sign up for a work account you will be presented with a signup agreement and only when you agree to the agreement can you sign up for a work account to become a member of the company. The company provides a copy of the agreement because each country has different laws and regulations. When you become a full time employee the agreement will automatically come into effect and you will be able to work every day from Sunday to Thursday, which is a working day, until the end of the working period when the deposit will be automatically refunded.

## Q: Why does CloudBoost settle paychecks in USDT?

A: As we are a national company, our employees come from all over the world. In order to omit the tedious time difference of national transfers and exchange rate fluctuations, the company has decided to standardize the use of USDT, which has the same value as the US dollar, for settlement. Everyone is free to withdraw their paychecks at any time through their e-wallets.

## PART 04
