

A HIGHLY

FLEXIBLE

CLOUD VIDEO SECURITY SYSTEM

SMART SERIES. NVR-BASED

ALL-IN-ONE VIDEO SECURITY PLATFORM

ULTIMATE OUTDOOR 4G SECURITY SOLUTIONS

EDGE+

DIRECT TO CLOUD CAMERA. NO NVR

Cloud Based Access from Any Where on Any Device

Enhance your Safety and Security Operations with Turing AI, Award Winning Cloud Video Security System

Smart Alerts in Real-time

Smart video alerts allow you to be more proactive with your on-premise security system. Quickly & easily create AI based alerts within Turing Vision and receive notifications via app, text or email on critical areas, people or vehicles of interest, license plates and more.

Find Events in 3 Clicks

Smart video search enables you to search by Face Search, Person Attribute, and Person History. Utilizing these search functionalities enables you to rapidly and accurately search for vital events and streamline your security operations.

Share Clips Instantly

Quick video sharing features takes away the frustration of collaborating with witness accounts and sending video to those that need it. Share AI event clips or saved video on the cloud to members of your organization, police and others via text and email.

FLEXIBLE, SIMPLE & ROBUST Cloud Video Security Solutions

- AI-Powered All-in-One Cloud Video Security Platform
