unleashing children's potentials with love and wisdom

MPM MATH - TOP MATH ENHANCEMENT PROGRAM

Suitable for Kindergarten – Year 6 Students

MPM Math is a leading mathematics program for children. With over 1100 MPM Math centres around the world. The program develops children's autonomy and independent thinking through the enjoyment of mathematics.

MPM Math is different from other mathematics programs – instead of focusing on calculations, the program comprise of a variety of word problems and creativity designed questions. Students are encouraged to “think outside the box” when exploring solutions.

MPM Math is

Multi – Process

Students learn to solve complex problems through simple steps. By breaking big problem into smaller parts, students can exercise their logical reasoning skills to get to the solution.

Multi – Model

Students are encouraged to explore challenging problems from various perspectives. Rather than using traditional approach to resolve a question, MPM inspires students to consider other alternate strategies.

Multi – Track Spiral Approach

With MPM's spiral Materials, students have the opportunities to master different concepts and skills. Materials are revisited repeatedly over months across different levels. Building up new concepts consistently over the students' competency level.

Personalized Learning System

MPM provides two-way, interactive communication. Students receive one-on-one support when having difficulty with challenging problems.
