

**VERSE 1**

**G**  
Adrift in the house  
          **C9**          **G**  
I talk to you and myself  
          **C9**          **G**  
I rinse an old glass  
          **D**  
And I drink to my health

There's no response  
Though I am slow to conclude

I should do something  
But I ain't in the mood, 'cause

**CHORUS**

**CM7**  
You're gone  
          **G**                  **CM7**  
I only cried twice today  
          **G**                  **CM7**  
But I'm still afraid  
          **G**                  **Em**    **CM7**  
You're never coming home

**VERSE 2**

Fixed by the clock  
But I don't want to advance

Content to remain  
In an endless slow dance

Tilted against  
An iron tide of despair

Your spirit remains  
And your stuff's everywhere, but

**CHORUS**

**BREAK**

**C**  
You know you must

**Cm**  
Let me go  
          **G**                  **Em**  
Or it will never scar

**C**  
Well I'd say that's  
          **Cm**  
Good advice  
          **D**  
From ashes stored in a jar

**VERSE 3**

Startled awake  
By the toll of the clock

It's after noon  
We should go for a walk

I reach for the leash  
As I hum a sad song

I stare at my hands  
I don't know what went wrong, now

**CHORUS**
