RE: Reference QuikmOve

I hired QuikmOve to move the large furniture of my daughter in May this year and am so happy I did.

The project required moving the large contents from one house to another. Contents included two large antique wardrobes, living room furniture, dinette set, bedroom furniture, kitchen island, hutch with glass doors, cabinet covered with mirrors, several book shelves and an Eliptical machine from what I recall.

The next day, my daughter learned the new landlord would not provide a refrigerator as planned. I immediately called QuikmOve who was able to work us in order to move a refrigerator from my warehouse to the house the next day.

The quality of service was outstanding and professional. The staff were always polite and accommodating for last minute items to load and even asked for more to fill the truck. They had their own tools for disassembling the Eliptical and box bedframe with drawers. Quilted pads were used to protect furniture and doorways and a skid proof floor pad to protect hardwood floors and tiled walkways.

The estimated quote was spot on and required a reasonable down payment. The owner and movers showed up within 10-15 minutes of the estimated time of arrival. After ensuring his staff understood what was to be moved, the owner left and returned to ensure all went well before the moving truck headed to the delivery location. He followed the truck to its destination to supervise the unload.

Unloading the truck went well and nothing was broken. They navigated the narrow stair case with the bedroom furniture without damage to the newly painted walls. The owner and staff did not leave until my daughter was fully satisfied with where the furniture was left.

There is no question that I would use QuikmOve again and highly recommend their service.

Sincerely,

Diane Krizek
