

THE FALLING

INTRO

I'm Falling.....I'm free falling now

VERSE 1

Sick n tired of seeing the lies

Spread like infection while the world dies

Puppets tied up on a string not caring where we dance,

Hidden hands corrupt the mind, seeking power, never ceasing.

We never really stood; we never stood a chance

VERSE 2

Too many signs to try to read, too many truths to try to believe

The defeated lay where they have fallen,

The rest too weak to breathe

Futile gestures in the dark, or are we too blind to see,

That we fight the very path designed,

Designed to set us free now

CHORUS

I'm falling; I'm free fallingNow

Darkness overcomes me

I'm falling.... Now

THE FALLING

VERSE 3

Isolated kept at bay, Social media social decay
Confusion is calling, no time to discern
Force fed injustice is not your concern
All hope is stolen away from the wise
It leaves me feeling empty inside
No room for ascension though, the fallen just won't rise

CHORUS

I'm falling; I'm free fallingNow
Darkness overcomes me
I'm falling.... Now

BRIDGE

Falling, Falling, Falling, Falling

CHORUS

I'm falling; I'm free fallingNow
Darkness overcomes me
I'm falling.... Now

I'm free falling now
