DEAD WEIGHT

VERSE

Feeling like a dead weight, drag me down deep next to you
I think it's gonna be a long wait
Take some time to get over you
If I could get my head straight,
If I could figure out my next move
I shouldn't have to tempt fate
Just to get a little love from you

CHORUS

If I could have it all back
If I could change the way this all panned out
Don't you think I'd take it?
Don't think I'm trying to work this out
But I don't have a reason,
Shouldn't need a reason, just to breathe
And I don't have the answers,
Just this dead weight hanging over me
It's Dead weight!

VERSE

Too many roads without a sign
Trying to make my way back to you
There's no end in sight, no view
No shining light to shine a way to you
If I could find a reason
Give me just a reason for me to hold on
You never had to fake it
I could see the danger in this all along

DEAD WEIGHT

CHORUS

If I could have it all back
If I could change the way this all panned out
Don't you think I'd take it?
Don't think I'm trying to work this out
But I don't have a reason,
Shouldn't need a reason, just to breathe
And I don't have the answers,
Just this dead weight hanging over me

GTR SOLO

BRIDGE

Dragging me down, turning me round,
Dragging me down, yeah I'm going under
Dragging me down, turning me round,
Dragging me down, yeah I'm going under
Dragging me down, turning me round,
Dragging me down, yeah I'm going under
Dragging me down, turning me round,
Dragging me down, yeah I'm going under

Nothing left my heart still aches
Nothing left except this Dead Weight

DEAD WEIGHT

CHORUS

If I could have it all back
If I could change the way this all panned out
Don't you think I'd take it?
Don't think I'm trying to work this out
But I don't have a reason,
Shouldn't need a reason, just to breathe
And I don't have the answers,
Just this dead weight hanging over me

½ CHORUS

If I could have it all back
If I could change the way this all panned out
Don't you think I'd take it?
Don't think I'm trying to work this out
If I could have it all back if I could figure out just what it means
But I don't have the answers
Just this dead weight hanging over me
