NO ONE GETS OUT

VERSE
This girl she's got me running, trying hard to slow her down
I can see the headlights coming as she tries to run me down

PRE CHORUS
She said she loves me but I'm not her style
She said she loves me but I'm in denial
She left me hanging yeah you know it's true when
She said she loved me but you know we're through now
What's that she's been saying all round town?
Building me right up yeah just to tear me down

CHORUS
If you're ready jump right in and take this ride
She's said "you know I'm playing to win"
But I just wanna survive
Coz no one's getting out of here alive

VERSE
This girl is just like fire you can't catch the naked flame
I can hear the thunder rolling see lightning in her veins

PRE CHORUS
She said she loves me but I'm not her style
She said she loves me but I'm in denial
She left me hanging yeah you know it's true when
She said she loved me but you know we're through now

NO ONE GETS OUT

What's that she's been saying all round town?
Building me right up yeah just to tear me down

CHORUS
If you're ready jump right in and take this ride
She's said "you know I'm playing to win"
But I just wanna survive
If you're ready jump right in and take this ride
She's said "you know I'm playing to win"
But I just wanna survive
Coz no one's getting out of here alive
