

NO COMING BACK

VERSE 1

You're gonna go, but I don't want you to.
Can't you stay a little while?
And yeah I know, there's nothing I can do
You're gone and with it went your smile.

VERSE 2

Holding your hand in the summertime baby
Dancing in the rain
Fireside in the moonlight honey
Nothing's ever gonna be the same

PRE - CHORUS

For just one second we threw off our lives
And dared for more than we could dream

CHORUS

But the truth is that your gone
there's no coming back from that
No there's no coming back
And the truth is I was wrong
thinking I can live like that.
But there's no coming back

GTR INTERLUDE

VERSE 3

We used to be, the undefeatable
You couldn't touch us with a glove
But now I see it's indisputable
You always hurt the ones you love

NO COMING BACK

PRE - CHORUS

For just one second we threw off our lives
And dared for more than we could dream

CHORUS

But the truth is that your gone
there's no coming back from that
No there's no coming back
And the truth is I was wrong
thinking I can live like that.
But there's no coming back

BRIDGE

You're a memory in my pocket
to pull out when I'm lonely ([lonely](#))
And I need to feel you near ([need to feel you, need to feel you](#))
you know that I still call, I call to reach your voicemail,
It's your voice I want to hear ([voice I wanna, voice I wanna](#))
when all the colours of my world just disappear.....

GUITAR SOLO

CHORUS

There's no coming back
Coz the truth is that your gone
there's no coming back from that
There's no coming back
And the truth is I was wrong
thinking I can live like that.
There's no coming back
There's no coming back from you.
