

HAUNTED

VERSE 1

These haunted eyes survey the empty distance.
This empty bottle where you used to lay.
I need you here beside me.
To light the shadows in my day.

VERSE 2

I walk alone chasing the echoes of your voice.
The silence mocks forever.
I search the shadows looking for your face.
And now I stand in darkness, to live the terror in this place.

CHORUS

Once we ruled the universe (**We stood as strong as faith**).
The world it crumbled beneath our feet (**It broke our close embrace**).
My heart will stay with you forever,
But when the night is over darkness remains.

VERSE 3

The cold of winter never seems to leave me
I'm haunted by the echoes of the past.
This empty heart lies frozen.
These dreams we had weren't meant to last.

HAUNTED

CHORUS

Once we ruled the universe (We stood as strong as faith).
The world it crumbled beneath our feet (It broke our close embrace).
My heart will stay with you forever,
But when the night is over darkness remains

BRIDGE

I'm haunted by the emptiness.
A world without you near.
I'm haunted by the words I know I never said.
And those I know you'll never hear.

CHORUS

Once we ruled the universe (We stood as strong as faith).
The world it crumbled beneath our feet (It broke our close embrace).
My heart will stay with you forever,
But when the night is over darkness remains.

OUTRO

You live here lost in my memory
Trapped within a dream
My soul will be forever haunted
Coz I can't seem to set you free.
