

WALKING WITH MY DARKNESS

VERSE 1

Darkness all around me
And you're hidden from my sight
I'm blinded and my soul's been taken,
I've lost the will to fight

PRE CHORUS

Don't want to live in darkness
But the light fades away

CHORUS

Walking with my darkness to places that I've never been
Searching in the faces for memories of the in between
Reaching out in silence to catch the falling dream
The light fades.....away

VERSE 2

I walk alone in shadows
Chasing echoes of your voice
The darkness mocks me, forever broken
I'm left to live this curse

PRE CHORUS

Don't want to live in darkness
But the light fades away

WALKING WITH MY DARKNESS

CHORUS

Walking with my darkness to places that I've never been
Searching in the faces for memories of the in between
Reaching out in silence to catch the falling dream
The light fades.....away

BRIDGE

Am I beyond redemption, can I live with my transgressions
Or can they be forgiven By the price I pay to you
The weight of my convictions casts a shadow in this room
Walking with my darkness, I find I'm alone with you

GUITAR SOLO

CHORUS

Walking with my darkness to places that I've never been
Searching in the faces for memories of the in between
Reaching out in silence to catch the falling dream
The light fades.....away

CHORUS

Walking with my darkness to places that I've never been
Searching in the faces for memories of the in between
Reaching out in silence to catch the falling dream
The light fades.....away
