Your New Medical Home

Family Health Center is a Patient-Centered Medical Practice dedicated to the health and wellness of the patients and community we serve. Our certification as a Patient-Centered Medical Home (PCMH) means our physicians and staff are committed to comprehensive, personal healthcare centered around you; partnering with you to ensure all of you and your family's medical and non-medical needs are met.

Your Personal Physician

The relationship between you, your physician, and the care team is the driving force behind a Patient-Centered Medical Home. Your physician will provide medical care that is right for you based on evidence-based guidelines shown to improve health.

Your Care Team

Your physician will direct the care team to coordinate your care based on YOUR wants and needs.

To improve efficiency, the care team will plan for your appointment by:

- ✓ reviewing your medical chart for up-to-date forms.
- ✓ check for recent testing.
- ✓ ensure you are notified of results in a timely manner.
- ✓ coordinate your healthcare across all care settings including the medical office, hospital, behavioral health, testing facilities and other places where you may receive care.

If you are admitted to the hospital, you will receive a phone call from your care team upon your discharge to review your hospital stay, make sure you return for follow-up care, and discuss any questions or concerns you may have about your treatment or medications.

Your Health

In return, we ask that you be an active participant in your health care. We ask that you take charge of your health by managing and monitoring aspects of your care.

You should:

- ✓ Let us know if there are any changes in your medications and bring a list of your medications with you to your visits.
- ✓ Let us know if you are getting care from other healthcare providers, any hospitalizations, or ER visits.
- ✓ Tell us about any complementary and natural treatments you are getting.
- ✓ Provide a complete medical history so you get the best care possible.
- ✓ Identify previous doctors so our medical records staff can request important notes and test results.

Quality for you

As a PCMH we are committed to providing same day appointments and offering expanded hours to meet your needs. We will use our electronic health record to support the best care, quality, and safety by helping us to identify and provide for your needs and the needs of our entire patient population. We are able to communicate with you electronically through our secure Patient Portal, along with sending you reminders for appointments and preventative or chronic care services due.

If you ever have any questions please just ask. Your care team is here to help!

Thank you for choosing Family Health Center as your Medical Home!
