

Cosimi Dental Implants and Periodontics

NOTICE TO ALL PATIENTS REGARDING CHARGES

Charges for all treatment are listed on your treatment plan given to you at your consultation appointment. You are responsible for the charges of all procedures performed regardless of insurance coverage.

PATIENTS WITH DENTAL INSURANCE:

- If you have provided us with the necessary information, we are happy to submit claims to your primary dental insurance. We do not accept Medicare or Medicaid.
- At your first visit, we will submit the claim to your dental insurance and wait to receive payment. Once payment is received and applied, the difference will be billed to you.
- For all appointments after your first visit, we will do everything we can to obtain a pre-treatment estimate from your dental insurance. The amount between the estimated insurance portion and the cost of the procedure(s) is the patient portion, and will be due at the time of service. If your insurance has estimated zero payment, we will collect the full procedure amount from you.
- The estimated insurance portion is not a guarantee of payment. If your insurance pays less than estimated, we will bill you the difference. If insurance pays more than estimated, we will credit your account for future treatment, or issue you a refund check, whichever you prefer.
- On occasion, receiving payment from dental insurance companies can take several months. Because of this, you may not receive a statement from our office until several months after treatment. No amount of time decreases or eliminates your balance with us.

PATIENTS WITHOUT DENTAL INSURANCE:

- The full cost of all treatment/procedures is due at the time of service for all appointments.

We do not offer payment plans through our office. However, we do offer third party financing through Care Credit. Please speak with the office manager if you have questions about insurance, patient portions, or payment options, including Care Credit.
