Dear

Your attention to this matter would be greatly appreciated.

I believe one of the main purposes of our laws is to protect citizen rights from powerful internationalists and rouge government. History is filled with examples.

The problem is that the WHO is gaining the reputation of being an abuser of human rights. For instance, there is the cases of the 83 WHO Congo perpetrators. Or of Emo Waganivalu. Then there is the catastrophic moral failure of the WHO over the COVID-19 vaccine. Furthermore, the Pfizer vaccine was claimed to be safe and effective, but the evidence today says it is not safe, effective nor was it even tested. Finally, there are the failures of the WHO Director General, Mr. Tedros, when he was the health minister of Ethiopia; these have been widely published (search for instance "acute watery diarrhea" Tedros).

The WHO-Canada Global Pandemic Treaty is unacceptable as it transfers unprecedented power to the WHO from the government of Canada. There will be no accountability or transparency with the WHO. Moreover, rouge governments can use WHO directives to weaponize BC Bill-36 and/or Federal Bill-63. This can seriously punish well intentioned doctors and scientists.

You are my elected representative. Please let me know your thoughts.

Warmly,
