

## **AGLAIA ESTHETICS**

### **Benefits of Online Training?**

Technology and training is constantly changing, Aglaia Esthetics has paid attention to this new style of education and we are very proud to bring to you our online courses. This training approach is quite unique in the Spa and Beauty industry. The online student will learn everything that is taught in the school environment, but the she/he will learn in the comfort of her/his home or office. There is no longer the need to "attend" regular classes, this will save the student time and money which come with attending conventional schools (babysitter, parking, gas and other expenses associated with "traditional" teaching).

Unlike traditional schools, colleges or universities, there are no terms, semesters, or specified intake dates for our uniquely flexible at home learn classes. Our system of continuous enrolment means that you can enrol on any day at any time of the year. This allows you the freedom to plan your studies to fit into your lifestyle.

All theory and practical applications are taught online and is a self-paced course delivered to you in 4 modules.

The course covers every area of nail technology, makeup artistry, waxing and facial therapy and was designed in a very special format for ease of learning and enjoyment.

This comprehensive course ensures you will be fully qualified upon successful completion to either work as a Nail Tech, esthetician or make up artist in a salon, or set up your own business. The possibilities are endless.

After each chapter there is are several quizzes and case studies to be completed and sent in for correction by an actual instructor which you can contact at any time.

You will be tutored through a series of DVDs, which walk you through each and every skill and techniques. You are required to perform the practical assignments on friends and family, when you are satisfied with your work, you simply take pictures of your work or record as specified and either text or emailed them to Aglaia for grading. We will email you detailing the perfect areas as well as the areas that require special attention. Once one module has been completed, you can then proceed to the next module.

\*At the completion of the online section(s), the student has the opportunity to participate in a 6 days intensive hands-on practical training and final theory / practical exam with the top professionals in the industry, this which will give the student a solid understanding and confidence of the new learnt skills.

The cost for each module is explained in the next attachment "course tuition summary chart" includes fees and tuition. There are no hidden costs. We offer an in house payment plan that "you pay as you go". We accept visa, master card, money order.

This course lends itself perfectly to single moms, stay at home parents, students who can't get to a school in their area, full time employees who cannot quit work to attend school and anyone wanting to take a course in their free time, be it evenings or weekends.

While very convenient, the "online" method of teaching isn't for everyone, (although many find it to be "their solution" to acquiring their education), you will need to possess a strong sense of self-discipline and determination, as learning now depends on YOU.

This comprehensive course ensures you will be fully qualified upon successful completion. This is by far the most comprehensive and fun course on the market today.

\*Essential for many Province and States.
