Innovation

We are visionaries and boundary-pushers. We innovate to challenge assumptions and create sustainable change. We are tenacious in our efforts to address employment inequality and injustices. We are determined to influence a positive impact on individuals, organizations, and systems.

Grand Opening on Main Street

"Walk with me here – to redeem is to be made whole again. We all have things that happen to us that reduce us from the state we want to be in. Before the temporary closure and restructuring, I thought we were on track, that we were headed towards success for the people and causes we were championing. Yet, all along there was that small voice I kept ignoring, the voice that said, "Are you sure this is the path? Have you lost focus?" I ignored the walls I kept banging into because of a colossal lie I had bought into: "This is how we have always done it." I called us innovators but allowed fear to keep me complacent. I believed us to be change agents but was too intimidated to implement the internal changes I knew we needed. The truth is, ladies and gentlemen, when we ignore the change we need to make, God will step in and create a space where you have no choice but to pay attention."

On March 11, 2022 we are hosting our Grand Opening for our on site location on Main Street in Downtown Toms River, NJ. By stopping in you will have the chance to meet the AIA team as well as other vital members of the community. There will be snacks, merchandise, live music and other surprises throughout the event. We are ecstatic to meet you there!
