Innovative Learning Academy

Our **Innovative Learning Academy** (ILA) was born from an idea that turned into a commitment. That commitment is to make education accessible for all learners, everywhere, at all times.

Where we learn is where we grow. AT ILA we harness the desire to learn and power it with innovation. Every learner is fundamentally looking for the same thing, expansion. Whether that is expansion of knowledge, experience or insight, ILA is committed to capturing the need and providing expansion in new and creative ways.

How do we do it?

With every ILA Membership, the learner is given access to our Learning Portal. ILA's Learning Portal includes:

- Self-directed and instructor-led learning courses.
- Small group webinars

In addition to our portal, all ILA members receive access to additional services such as specific one on one learning, small group learning, seminars, and much more.

Supported Employment Portal:

Another way ILA reaches the learners of our communities is through our Supported Employment training. These courses are developed for clients enrolled in our Everyone Can Work (ECW) programs. These specific Supported Employment courses are designed to empower and encourage ECW clients in all phases of Supported Employment.

Train Your Crew Portal:

ILA knows how difficult can be to ensure that each and every staff member receives the engaging and productive training they deserve. Our Train Your Crew Portal access is a membership for your managers and supervisors, they will receive and assign training to meet all your agency training requirements. Additionally, we offer original training creation as well.

At ILA we believe in the power of every learner. We are lifelong learners on a mission to bring purposeful, engaging, and innovative learning to all learners.
