

*A Pennsylvania Non-Profit (pending)*

Dear Neighbors, Friends, and Supporters,

South Whitehall Civic Alliance was formed as the formal organizational vehicle for the **OpposeAtlasDC.com** campaign. Our sole purpose is to provide a unified voice for the community in opposition to the proposed Atlas data center to be built directly across from Parkland High School.

The proposal raises serious concerns for students, families, and the broader community. For Parkland High School, the project would bring persistent industrial noise, vibration, and diesel generator emissions which would directly impact the learning environment. For the wider community, the risks include impacts to two critical watersheds, increased noise, the potential disturbance or release of contaminants from the former Geo Specialty Chemicals site and a trove of other impacts on our community. The plan is an overall net negative for the township and serves no purpose other than to erode our community, consume our resources, and destroy the single largest agriculturally used parcel in the township.

Meeting this challenge will require more than concern alone. Donations provide the fuel that allows us to convert our concerns into action. Preventing Atlas from becoming reality will require sizeable funding to match the resources of the developer, retain qualified technical experts, challenge flawed impact analyses, engage legal counsel and, if necessary, bring suit to stop the project from moving forward. It is more than any one of us can afford alone, but it is far less than what all of us can provide together.

This is our home. It is where we have chosen to live, raise our families, and invest in our future. Protecting it is a just cause and worth fighting to defend.

Please consider making a donation today. Your support shows that we will not stand idly by while developers and the Township move to fill our air with noise and emissions, endanger our watersheds, and degrade the community which we call home. With your support, South Whitehall Civic Alliance can take meaningful action to defend our schools, our neighborhoods, our environment, and the future of our community.

Thank you for standing with us.

Sincerely,

The South Whitehall Civic  
Alliance Team
