 - Google Analytics | Mouseflow
-

EXPERIENCE

UX & UI Designer

2022– 2026

Zaber Technologies, Vancouver, BC

- Led end-to-end UX/UI design for complex software applications, streamlining multi-step workflows and making core tasks significantly more intuitive and accessible for beginner users.
- Developed wireframes, user flows, and high-fidelity prototypes, clearly guiding 5 to 6 development team members toward aligned solutions, ensuring consistent UI patterns, and improving overall design cohesion.
- Collaborated closely with developers throughout agile sprints, aligning design decisions with technical constraints, resulting in smoother implementation and a measurable reduction in rework.
- Led the UX/UI redesign of the website, improving navigation, content layout, and accessibility.
- Partnered with stakeholders to translate business goals into user-centered, scalable design solutions.
- Supported the marketing team by designing print and digital collateral, including brochures and tearaway cards, while maintaining consistent branding.

Freelance Designer

2020– 2022

Self-Employed, Vancouver, BC

(continued on page 2)

Freelance Designer

2020– 2022

Self-Employed, Vancouver, BC

- Delivered UX/UI, responsive web, and print-ready graphic design solutions for small businesses and startups.
- Led client discovery and stakeholder discussions to define product goals, user needs, and design direction.
- Designed user flows, wireframes, prototypes, and high-fidelity UI using user-centered design principles.
- Produced developer-ready assets, UI components, and design documentation for smooth implementation.
- Created brand-aligned digital and print marketing materials while managing multiple client projects and timelines.

UX & UI Designer

2017 – 2020

D3 Security, Vancouver, BC

- Partnered with 2 UX/UI designers, PMs, BAs, and engineers to deliver end-to-end UX and product design for a cyber-security platform, producing user-centred, intuitive solutions that improved usability and enhanced the overall product experience.
- Redesigned and optimized core product modules, streamlining workflows and clarifying information architecture, resulting in a more cohesive and intuitive user experience across the platform.
- Collaborated within a cross-functional agile team, participating in daily stand-ups and leveraging transparent task tracking aligning priorities, increase visibility, and ensure efficient design-to-development hand-offs.
- Established and scaled an in-house design system, standardizing UI components, interaction patterns, and visual language to ensure consistency, scalability, and cohesion across the product, while actively designing and building UI screens.

EDUCATION & CERTIFICATION**BFA in Graphic Design**

2010

Rhode Island School of Design, RI, USA

UX Design

2017

Red Academy, Vancouver, BC
